All Round IT Engineer

MarineSecure is a fast growing IT company in the superyacht industry. We operate worldwide with 24/7 service in a niche market of the maritime sector. As a growing company, there are many challenges and we are looking for new talent to help us with them.

Due to the growth of our business, we are looking for All Round IT Engineers, who wants to work on cutting edge projects. You design and support high-quality infrastructures for superyacht owners worldwide. The solutions you design are used in some of the largest superyachts in the world. We work with demanding customers who have high expectations.

Your days will never be dull, hourly schedule changes are a daily occurrence in our field. We offer you a full-time job with new challenges, opportunities to travel to locations that are often unreachable for normal people and a great young team of colleagues.

As our new colleague you will be responsible for supporting many of our ships, supporting our junior staff in their work and ensuring their work is on point. On a daily basis, you will mainly be involved in the following tasks.

- Build and design advanced IT networks for superyachts.
- Support our systems on board the ships, wherever they are (worldwide).
- Take responsibility for major IT networks used for deploying the AV/IT systems aboard superyachts.
- Configure and operate all IT systems on board the ships (firewalls, routers, switches, servers, WIFI, storage, desktops, VOIP, CCTV, audio/video over IP, automation and various other IP compliant systems).
- Troubleshooting: quickly and efficiently solving a technical problem.
- Take charge of projects or provide IT technical support and advice to project managers on the most suitable IT solutions during projects.
- Help our sales team with network designs and come up with elegant, robust and cost-effective network solutions.
- Come up with new ideas and solutions, you work in a technically rapidly changing environment.
- You guide and train the Junior IT colleagues during projects and you help them with daily technical questions and solutions.

If this position is right for you and you would like to come and work for us, you will need some skills to be successful in this job. If you have the skills below and recognize yourself in the following description, we need you

- Do you have organizational, leadership and management skills
- Pay attention to details and are you customer-oriented, no matter how demanding they are
- Are you willing to travel nationally and internationally, for shorter and longer periods, sometimes last minute.
- Possess an analytical mind with a problem-solving attitude
- Can you make quick decisions independently
- Are your speech and writing skills in Dutch and English excellent? If you also have these skills in Arabic or German, that's a plus.
- Are you resistant to stress, in all kinds of environments
- Can you deal with many daily changes and are you flexible
- You have integrity, you stay informed about world news and you are aware of other cultures
- And do you have a good dose of humor

If you also have knowledge and skills with all or most of the following technical aspects of our industry, then you should definitely apply.

- Cisco Networking (CCNA / CCDA / CCNP / CCDP / CCIE / Wireless)
- Cisco DNAC
- Cisco Security (Firepower [NGFW] / Identity Services Engine [ISE])
- Cisco Collaboration (CallManager [CUCM] / Webex)
- Cisco Data Center (HyperFlex / UCS)
- Cyber Security (CISSP)
- NIST Cyber Security Framework
- ISO/IEC 27001 Information Security Management System (ISMS)
- Maritime Cyber Risk Management
- Microsoft Exchange Server
- Microsoft Windows Server
- Microsoft Configuration Manager (SCCM)
- Mobile Device Management
- Systems and Network Engineering
- Apple Business
- Active Directory / GPO
- Linux
- Dell / EMC
- ITIL / ITSM / Lean Six Sigma
- Service Desk
- Help Desk
- PRTG
- Kubernetes / Docker
- VMware (vCenter / ESXi / Tanzu)
- VEEAM

What do we offer you in short?

Working in a niche market in the maritime sector, with opportunities to travel to unreachable destinations to support our customers. An always varied job, with many challenges and opportunities to further develop yourself. A team with nice colleagues in a company that is in full development and with whom you can also talk about the growth opportunities of the company.

- A 40 hour contract for 6/12 months with a probationary period of 1 / 2 months.
- Laptop, iPhone and subscription from the company
- Reimbursement of public transport
- Possibility of a pension plan
- Training budget options
- Salary between € 3000 and € 4500 per month excl. holiday allowance
