

13th congress of the ECSVD

European College for the study of vulva disease
September 10 - 11, 2020

SCIENTIFIC PROGRAM

ECSVD

13th congress of the ECSVD
september 10 - 11, 2020
www.ecsvd-online-congress.com

Dear colleagues,

as the corona virus continues to spread and we will have to face travel restrictions also in the near future, we have decided to set up the 13th congress of the ECSVD as a virtual meeting.

We look forward to an exciting and stimulating scientific program and hope that you will join us online this time.

Looking forward to welcoming you online soon!

Elmar Joura
President ECSVD 2018-2020

Ulrika Heddini
Secretary

09.00 - 09.30	INTRODUCTION	september 10, 2020
09.00 - 09.30	Welcome & Introduction JOURA E. / Austria	
09.30 - 11.35	VULVAR DERMATOLOGY	
09.30 - 09.55	The contemporary terminologies of vulvar disease BORNSTEIN J. / Israel	
09.55 - 10.20	How to examine a vulva? EBERZ B. / Austria	
10.20 - 10.45	Lichen sclerosus: state of the art MOYAL BARACCO M. / France	
10.45 - 11.10	Lichen planus: diagnosis and management VELANGI S. / UK	
11.10 - 11.35	Inflammatory dermatoses LEWIS F. / UK	
12.00 - 14.00	INFECTIOUS DISEASE	
12.00 - 12.20	Can we eradicate genital warts through vaccination? An Australian perspective GARLAND S. / Australia	
12.20 - 12.45	The genital tract microbiome: does this affect presence of disease? KYRGIU M. / UK	
12.45 - 13.10	The present and future of vaginitis diagnosis VIERO-BAPTISTA P. / Portugal	
13.10 - 13.30	Vaginal infection in pregnancy: should we screen and treat? KISS H. / Austria	
13.30 - 14.00	Genital herpes: Management of symptomatic and catamenial variability GREENHOUSE P. / UK	

14.30 - 15.30 PHYSIOTHERAPY - WORKSHOP september 10,2020

14.30 - 15.30 A physical therapy approach for treating chronic vulvar pain
HARTMANN D. / USA

15.30 - 17.00 VULVAR PAIN

15.30 - 16.00 Prevalence and management of vulvar pain in different
european countries and how to move forward?
DAMSTED PETERSEN C. / Denmark

16.00 - 16.30 Provoked vestibulodynia and fertility
BOHM-STARKE N. / Sweden

16.30 - 17.00 Pitfalls in managing vulvodynia
TOMMOLA P. / Finland

17.00 - 17.16 ABSTRACT SESSION - VULVODYNIA

17.00 - 17.08 Botulinum Toxin A as a Treatment for Provoked Vestibulodynia: A
Randomized Controlled Trial
HARALDSON P.

17.08 - 17.16 Internet-based treatment for vulvodynia (EMBLA) – a randomized
controlled study
HESS-ENGSTRÖM A.

17.16 - 18.30 ABSTRACT SESSION - DERMATOLOGY

17.16 - 17.24 Hydroxychloroquine sulphate: a safe and effective treatment in
erosive lichen planus of the vulva and vagina
VERMEER H.

17.24 - 17.32 Safety and efficacy of oral Hydroxychloroquine in recalcitrant
erosive Vulval Lichen Planus
AKUFO-TETTEH E.

ABSTRACT SESSION - DERMATOLOGY

- 18.32- 17.40 Juvenile and adult vulvar pemphigoid, an under recognized entity: case series of fourteen patients
RASHID H.
- 17.40 - 17.48 Vulvar Fordyce adenitis in a cohort of 45 women
POIZEAU F.
- 17.48 - 17.56 Causes of death of women with lichen sclerosus and lichen planus
HALONEN P.
- 17.56 - 18.04 Laser therapy for lichen sclerosus: a systematic review of the current evidence base
TASKER F.
- 18.04 - 18.12 An audit of long-term follow-up in primary care of women with Lichen Sclerosus
WANG XM
- 18.12 - 18.20 Barriers to adherence with prescribed topical therapy among female patients with lichen sclerosus
DHONNCHA E.
- 18.20 - 18.30 Vulval White Sponge Nevus, report of one sporadic and two familial cases
PLANTIER F.

09.00 - 10.00	VULVAR PATHOLOGY	september 11, 2020
09.00 - 09.40	Clincopathologic diagnostic criteria for differentiated vulvar intra epithelial neoplasia and vulvar aberrant maturation SCURRY J. / Australia, DAY T. / Australia	
09.40 - 10.00	What information is needed from the clinician REGAUER S. / Austria	
10.00 - 11.05	VULVAR ONCOLOGY I	
10.00 - 10.15	HPV vaccination in adults JOURA E. / Austria	
10.15 - 10.30	HPV vaccination and VIN: new data GHELARDI A. / Italy	
10.30 - 10.50	Imiquimod for intraepithelial neoplasias: an overview VAN SETERS M. / Netherlands	
10.50 - 11.05	PITVIN - a randomized trial: Imiquimod vs. surgery TRUTNOVSKY G. / Austria	
11.30 - 13.00	VULVAR ONCOLOGY II	
11.30 - 11.55	The AGO-CaRE series - gaining insight in vulvar cancer WOELBER L. / Germany	
11.55 - 12.20	HPV positive and negative vulvar cancer DE HULLU J. / Netherlands	
12.20 - 12.45	The GROINSS - study: sentinel lymphnode in vulvar cancer OONK HM M. / Netherlands	
12.45 - 13.00	Sentinel lymphnode detection with ICG in vulvar cancer POLTERAUER S. / Austria	

14.30 - 16.10 VULVAR SURGERY

- 14.30 - 15.00 Laser treatment in Menopause: what is the evidence?
TEMPFER C. / Germany
- 15.00 - 15.20 Anal disease for vulvologists
SALAT A. / Austria
- 15.20 - 15.40 Delivery after FGM: what interventions are useful
DÖRFLER D. / Austria
- 15.40 - 16.10 The impact of a nursing counselling intervention on postsurgical symptome outcomes in women with vulvar neoplasia: The WOMEN-PRO program
KOBLEDER A. / Switzerland, MEICHLINGER J. / Switzerland

16.30 - 16.46 ABSTRACT SESSION - DYSPLASIA

- 16.30 - 16.38 Low reproducibility of histological diagnosis of differentiated vulvar intraepithelial neoplasia: a bi-national ring study
EWING-GRAHAM P.
- 16.38 - 16.46 Prevalence of cervical dysplasia among migrant women with female genital mutilation/cutting
AZUAGA MARTINEZ A.

16.46 - 17.20 ABSTRACT SESSION - SEXOLOGY

- 16.46 - 16.54 In Vivo ImagingBased 3-Dimensional Pelvic Prototype Models to Improve Education Regarding Sexual Anatomy and Physiology
ABDULCADIR J.
- 16.54 - 17.04 Chronic vulvar pain after female genital mutilation/cutting: prevalence, etiologies and treatments
ABDULCADIR J.
- 17.04 - 17.12 Therapeutical effect of a combination of pea protein, grape seed extract and lactic acid in an in vivo model of bacterial vaginosis
CAMPOLO M.
- 17.12 - 17.20 A new approach for the treatment of recurrent vulvovaginal candidiasis with a combination of pea protein, grape seed extract and lactic acid assessed in vivo
ESPOSITO E.

17.30 - 18.30 FINAL DISCUSSION

JOURA E. / Austria, TOMMOLA P. / Finland

SPEAKERS

BOHM-STARKE Nina / Sweden
BORNSTEIN Jacob / Israel
DAMSTED PETERSEN Christina / Denmark
DAY Tania / Australia
DE HULLU Joanne / Netherlands
DÖRFLER Daniela / Austria
EBERZ Barbara / Austria
GARLAND Suzanne / Australia
GHELARDI Alessandro / Italy
GREENHOUSE Peter / UK
HARTMANN Dee / USA
JOURA Elmar / Austria
KISS Herbert / Austria
KOBLEDER Andrea / Austria
KYRGIU Maria / UK
LEWIS Fiona / UK
MELCHINGER Jasmin / Austria
MOYAL BARACCO Moxal / France
OONK HM Maaike / Netherlands
POLTERAUER Stephan / Austria
REGAUER Sigrid / Austria
SALAT Andreas / Austria
SCURRY James / Australia
TOMMOLA Paivi / Finland
TEMPFER Clemens / Germany
TRUTNOVSKY Gerda / Austria
VAN SETERS Manon / Netherlands
VELANGI Shireen S. / UK
VIERO-BAPTISTA Pedro / Portugal
WOELBER Linn / Germany

REGISTRATION FEES

Early Bird until 17/07/2020

includes virtual congress & ECSVD membership 2020/2021

EUR 290,- / Consultants

EUR 190,- / Trainees

EUR 190,- / Health care professionals

Regular from 18/07/2020

includes virtual congress & ECSVD membership 2020/2021

EUR 340,- / Consultants

EUR 240,- / Trainees

EUR 240,- / Health care professionals

Membership only 2020/2021

without virtual congress

EUR 100,- / Consultants

EUR 50,- / Trainees

EUR 50,- / Health care professionals

The registration fee includes:

- ECSVD Membership 2020/2021
- 13th ECSVD congress
 - free access to all sessions, presentations and discussions
 - participation in the scientific program makes delegates eligible to receive the number of CME credits attributed to the virtual congress
 - full access to records and materials for a limited period of 3 months after the end of the congress
