- FACULTY-LED
- SHORT-TERM

Support

- STUDENT CARE
- HEALTH/SAFETY
- HOUSING
- CO-CURRICULAR ACTIVITIES

Our Commitment to Diversity & Inclusion

We are committed to providing access, equity and inclusion to the diverse and underserved students that are not currently fully included in education abroad. Through inclusive programming we intend to build a healthy climate in our programs so that all participants feel welcomed, supported, included and valued.

Bridging Destination & Content

The following program suggestions intend to highlight the strengths of our destinations, the industries native to the location, as well as strength in diverse perspectives. Bridging destination and content will create coherency and sense in the design. Inclusion will always be at the foundation of the framework.

Accessibility & Equity

We hope these ideas inspire you to start building your Inclusive Program with us! We look forward to further developing ideas on how to build just the right program for just the right students and in exploring ways to ensure that programming is cost-effective and accessible for everyone.

Program Themes

Business & Gender Equality
