

EUDF UPDATE – MARCH 2021

STRATEGIC FORUMS @WORK

EUDF wants to develop solid policy recommendation on three core topics: Data and registries, Integrated Care and Self Care, Technology & Digitalisation. Three Strategic Forums with 45 topic experts, representing people living with diabetes, medical experts, nurses and companies involved in the manufacture of products and tools to treat people with diabetes, have started working! With the help of Audience and Acumen, these Forums will communicate the results of their work in the next months! Keep an eye on our website for reports and related events.
