I agree to the storage and processing of my personal data from this sponsoring membership application, as well as to contact via e-mail for information and advertising purposes against revocation at any time.
This data will not be passed on to outsiders.

Information on the use of personal data/data protection declaration:

The Pax Lux association in A- 2722 Winzendorf, Volksheimstr. 396/B11 is the responsible party for the data processing activities set out here. The provision of my personal data stated above is necessary for the fulfilment of the purpose of the association according to the statutes - in case of non-provision, membership to the association is not possible. (This does not apply to the consent to receive newsletters and the production of use of photos - these are voluntary!) With my signature, I acknowledge that my personal data provided here will be processed electronically and manually within the association on a contractual basis (membership). The purposes of the processing are: organisational and professional administration and financial processing, member administration, sending of association and federation information, information on association-relevant events, sending of the association magazine as well as, if applicable, the filing of documents that may contain personal data in the association archive. Personal data will only be used by the association for the purposes stated. In the event of withdrawal from the Association, all data shall be deleted within one year of withdrawal at the latest, provided that there is no arrears of payment on the part of the member, the data is not required for the assertion, exercise or defence of legal claims of the Association and no longer retention of the data is required by law. If documents containing personal data have found their way into the association's archives, they shall remain there until revocation or a request for deletion. My rights in connection with data protection regulations extend to the right to information, authorisation, deletion, restriction, data transferability and, if applicable, objection to processing. Furthermore, I have the right to lodge a complaint with the data protection authority - the data protection declaration of Pax Lux (request directly via paxlux@posteo.org) provides information on all these aspects.
