Internship positions Aircraft mechanic / Mechanic

Are you looking for a position for your mandatory work internship?

A common question we get is, "Do you hire students fresh out of college?" Our answer: "YES!" We are offering internship positions to students of aircraft mechanic and mechatronic.

Areas of responsibility: regular aircraft maintenance, major aircraft inspections, disassembly and assembly of aircraft components, examination of aircraft systems, testing, and adjustment of components, carrying out modifications, identifying and remedying defects

Requirements: This internship is available for students starting from the 4th semester of a technical school, university, or other higher education.

We offer: responsible, attractive tasks with development opportunities in a stable corporate environment, working in a small and motivated team, gym and sauna on site, breakfast. Accommodation is available on site.

Start date: immediately

Place of work: Klatovy Airport, Czech Republic

Salary: 300-500 EUR/ month netto

You have a passion for aircraft and technology, love challenges as well as varied activities and want to contribute to the continued success of our company, then send an application with all application documents to: office@ask.cz
