About

Founded in 1978, Kragelund is a supplier of upholstery furniture based on the proud Danish tradition of furniture design and craftsmanship.

Our mission is to provide high quality at the right price. Quality understood as attractive commercial designs, with high comfort, solid craftsmanship and high durability complemented by a great service. The right price meaning that the perceived value of the product must be higher than the asking price.

As part of a large furniture group with its own production facilities in different parts of the world, Kragelund is continuously able to optimize the production processes and sourcing of materials. Through our global supply chain, we set high social and environmental standards to ensure that our ethical values are always followed.

It is our goal to ensure that Kragelund qualifies as your preferred choice when looking for sofas and chairs.

Design

Our designs are developed by a team of internal and external designers. This ensures a span in our product range that not only meets our Scandinavian origins but a range that also offers the best of current international trends. Most designs offer a variety of legs and arm styles to enable adjustment of the sofa to your individual preferences.

Comfort and quality

In our design process, we strive to make aesthetics, comfort and durability go hand in hand. We use HR foam in all our seats combined with different types of fibres, pocket springs or foam/feathers. Frames are finger-jointed solid wood frames, build to last.

Customized

As each sofa is defined by your choice of shape and finish, we start production as soon as we have received your order and we deliver to the majority of the European markets in 4-6 weeks.

Service

As we honour our quality, our Danish-based customer service, who speaks multiple languages, is always available if something is not as expected. We have basic spare parts in stock at our head office in Denmark for quick delivery if needed.
