

BUBBLE WRAP UNDER THE SEA PICTURE..

You will need:

bubble wrap or similar
paints (blues, green and colours for your fish)
a large piece of paper for the main picture
smaller pieces of paper for cutting & making handprint shapes (this can be old envelopes, packing paper etc.
scissors
glue
black pen

use brightly coloured paints to paint your child's hands and make fun hand prints, you can make patterns, mix colours and have lots of fun with this. When making the hand prints on paper keep your fingers together and aim for a fishy shape and once dry add eyes with a black pen

Use green paints to create hand prints that look like seaweed, keep the fingers apart for these.

Whilst these dry lay out your bubble wrap and colour it in with blue paint, mix shades of blue for a better sea affect.

firmly press your large piece of paper on top of the bubble wrap and transfer the paint to the paper, you should have a bubbly under the sea affect.

Once your hand prints are dry cut them out and stick them onto the sea like in the below picture....
