Honeywell wifi vision pro 8000 installer setup

Honeywell vision pro 8000 app setup. How to connect honeywell vision pro 8000 to wifi. Honeywell vision pro 8000 will not connect to wifi.

04-18-2020, 02:27 PM #1 Hello, I have a honeywell visionpro 8000 thermostat that won't go into setup mode. The unit is currently showing SCREEN LOCKED. When I press install, it only briefly shows the screen with empty buttons on the bottom where you press the buttons to get into setup mode. Then goes immediately back to normal screen. The problem started when I disconnected the unit from a GE heat pump that hasn't been working for years. Power has not been connected to the heat pump ever since it stopped working. Any advice on troubleshooting this would be appreciated. Regards, LT 04-18-2020, 02:33 PM #2 Unfortunately troubleshooting isn't permitted on this forum. 04-18-2020, 05:24 PM #3 If the thermostat is locked, that means someone put a password on it to prevent access to certain settings. 04-18-2020, 06:35 PM #4 .
