

We are hiring as soon as possible:

(Junior-) Industrial Designer Equipment (all genders)

Who we are:

The Treehouse Design Lab specializes in designing and developing backpacks, bags and luggage for clients in the field of sports-, lifestyle and outdoor industries.

Creating new things and features is our passion, the consistent implementation to functional and sustainable, yet commercial products is our mission.

The close collaboration with material suppliers and manufacturers mainly but not only in Asia allow a quick realisation of the designs as well as quick decisions, but most importantly the possibility to determine sustainable sourcing.

Having profound expertise in designing sewn products, developing technical refinements and nominating the appropriate materials towards a certain target price, the Treehouse Design Lab is the one stop service when it comes to creating cutting-edge sustainable solutions for people on the go.

Your Role:

Are you ready to design this world a better place? Then come into our Treehouse! We are aiming to pair bold designs with sustainability and production efficiency.

As (Junior-) Industrial Designer Equipment you will be working in a vibrant environment with international clients and production partners. In this role you will be responsible for the whole product development cycle. This includes the concept design, sketching, maintenance of tech sheets, ergonomic engineering, nomination of materials, prototyping, sourcing, production consulting and quality management with the target price and respective sustainability standards in mind. You will ideate and refine designs both in 2D and 3D and help bring your design concepts to production. You will also be working on product families and collection design.

Who you are:

Applicants should have a portfolio that demonstrates a wide range of concept exploration, creativity in solution finding, sketching skills as well as rendering and 3D surfacing skills, technical understanding especially in the textile or composite area, and the following

- University Degree/B.A. in Industrial Design, Accessory Design or related field.
- Awesome sketching skills and excellent handling of Adobe Creative Suite and Rhino.
- Self-motivation with good time management skills.
- Ability to simplify highly complex topics and create impactful and understandable presentations.
- Should be fluent in English and at least one additional language. German is a plus.

Please apply with a CV, cover letter and a portfolio that shows not only the final product but also the different steps and thoughts during the design process.

For more information visit www.treehousedesign.de

The Treehouse Design Lab is based in Pfungstadt, Germany. Even though working from remote is part of our job, we are handling materials and samples that would make office days unavoidable. Metropolises like Frankfurt or Mannheim can be reached in less than 30 minutes and the beautiful countryside between Odenwald and river Rhine is perfect for biking and hiking. The boulder hall can be reached by bike in less than 10 minutes.

Please send your application in English or German to hello@treehousedesign.de
