

The i.CLEANER is a water-based, tensid-free und quick drying cleaner for the preparation, cleaning and humidification of surfaces to be glued.

Dirt, such as dust, fat and oil, is dependably removed so that optimal conditions for glueing are achieved. The cleaner is non-flammable and EU-REACH conformant.

The i.CLEANER is available in practical spray bottles but also as impregnated cleaning cloths. Special sizes and/or versions by request.
