

# DEAR ROBIN

Dear Robin - the upcoming Rock band from Rostock (Germany) is on tour with their second studio album - Timebound.

The new record sounds like Vintage Rock à la Fleetwood Mac and Deep Purple. Spirited Rock songs meeting Blues elements with a little pinch of Americana and Southern Rock.

The band came together in Hoppegarten near Berlin to put together the album on the farm of East-Rock legends from Silly. In 2023 Dear Robin shared a stage with Rolling Stones bassist Darryl Jones and Udo Lindenberg keyboarder Jean-Jacques Kravetz.

With powerful guitars, stirring melodies and catchy lyrics the band takes you on a nostalgic trip to the golden times of Rock.

Songs like "Get Enough", "Thunder" and "Summerwine" - of their debut album "Revelation" - show the range of this energetic Rock band. Their live shows are promising Woodstock Feel - handmade, powerful and rousing!
