

Don't Stop Now

Now your looking at me
And My hearts beating faster
Oh, your getting nearer
And I just want to ask ya

I'm standing here
And feeling a fool
Trying so hard
Just to be cool

It's true since I saw you
Nothing else is on my mind
You ask me the way
And also ask me the time

No doubt about it
Since you moved into this town
I'm glad that you found it
I'm glad your around

Don't stop now
From looking my way, girl
Don't stop now
Hear what I'm saying
Don't stop now
Give me a chance to change your life

Your looking at me now
My temperatures rising
If you don't stop it
I'll probably catch on fire

You better help me
To cool my body down
Because if you don't
I'll cry out, oh, oh

Don't stop now
From looking my way, girl
Don't stop now
Hear what I'm saying
Don't stop now
Give me a chance to change your life

Don't stop now
I'm crazy about you
Don't stop now
It's all the things you do
Don't stop now
Come in these arms and say you mine
