Some points to consider before purchasing a puppy

You need a Veterinarian

Someone who lets the pup out and feed it while you are out

If you rent or own a condo... please make sure you are allowed to have a dog

What happens to the dog if your lifestyle changes

Do you have a fenced yard or somewhere where the puppy can exercise, burn off energy

Will you crate train or have a pen

Will the pup be doing its business inside on a pee pad or garage/balcony/yard etc.

Where will the dog be during the day/night when you are home or not home

You might like to sign up for training classes

We hope these bullet points help to give you ideas and things to consider

Thank you for your time in answering our questions candidly. Your answers won't be the only factor in determining whether any of our puppies should go home with you. We'll reach out to you about how we'll move on with the process of your search for a dog as an addition to your family.
