Silverlake

Meet me at Midnight
Together we'll ride down
Only the moonlight
Down to Silverlake

Meet me at Midnight
Together til the sun says Hi
Only by moonlight
To the shores of Silverlake

Baby said she will never run away
Baby said she will forever stay
When she left she blacked all the love I knew
When she was gone
I thought I'd never believe in love again
But

Then you came along
Positive to the bone
Turning my believes around and around
And around and around

Meet me at Midnight
Together we'll ride down
Only the moonlight
Down to Silverlake

Meet me at Midnight
Together til the sun says Hi
Only by moonlight
To the shores of Silverlake

Baby said we will always be one
When she smiled I knew it to be my salvation

You came and stayed
Loving in every way
Turning my Life around and around
And around and around

Meet me at Midnight
Together we'll ride down
Only the moonlight
Down to Silverlake

Meet me at Midnight
Together til the sun says Hi
Only by moonlight
To the shores of Silverlake

Meet me at Midnight
Together we'll ride down
Only the moonlight
Down to Silverlake

Meet me at Midnight
Together til the sun says Hi
Only by moonlight
It'll be our secret place

Share this moment as we ride down,
Baby, don't let go of me now
Our hearts are one and we are free -
lets enjoy the spirit here
We take care of the other as we go along -
and know what we've found
And now its the moment to celebrate -
at the shores of Silverlake

Not Anymore

Hey Man, You had so many dreams
Now you live a life full of convention
Full of copied learned pretentions
Never followed your own desires

Your small routines replaced your dreams
Turning the canvas black and white
You actually went everywhere
But never left the borough

Not anymore
Your choices are your own
I cannot follow
Not that path
Not anymore
Not anymore
I will not watch and cry for what I can't follow
So I'm leaving leaving here now...

Your choices are your own ..
That said I cannot follow
Not everything is easily done
I e.g. got better along the way

Today our lives are separated
I am sure you will be fine
I for one live in my here and now
And feeling alive

I don't like to loose you
But you have parted too far
I never forced you This way, please
But I can't follow your path

Not anymore
Your choices are your own
I cannot follow
Not on that path
Not anymore
Not anymore
I will not watch and cry for what I can't buy in
Go Your own way I'm leaving here right now...

For a Life getting better
Better all the time...
For us all and you and me
So don t be sad
Don't be sad if you make mistakes
On your way around
For In the end
They will Make
Your life a better place

Not any more
I wish you all the best
From the bottom of my hear

Serpentine Road

There was a time
I thought I would
Never get it right

I realise now
Its only the drivers' seat that counts

Its up to you
So take control
Take a stand for
What you know
Don't be scared
Just go on now
You'll get better
Every day

I made up my mind
Chose to having a good time
Never letting go ...of the wheel

The way is just mine
I will make myself anew
Its never too late I'll go on
The way is far
Start right now
It might get wild
Don't be scared
True to yourself
And thats the thing

When driving on

Serpentine Road
Steady as you go
Serpentine Road
All your life

Serpentine Road
Uphill and to the pass
Serpentine Road of Life
You will be fine
It gets easier all the time

And so I pushed hard
Made my way
And you chose me beside you

Your way is up
But not alone
Find the time
You'll be alright
So Don't be scared
Just go ahead
You'll get better
Every day

With you at my side
What a beautiful life
We are in this together now

The sky grows wide
Follow on
It might get wild
Don't be scared
True to yourself
And thats the thing

When riding on

Serpentine Road
Steady as you go
Serpentine Road
All your life

Best Of Times

The best of times,
We'll be alright,
The best of times for us tonight.

We're only headed our own way,
The path we dial, is up to us
We know the way, the road ahead
Because ours is the only way

These are the best of times, lovely times -
we'll be alright,
Be sure to make it last a lifetime.
These are the best of times, fantastic times -
and we'll be fine
The best of times is here for us tonight

We'll letting go of the bad
So gather around right now and here,
Make your choice, don't disappear,
And don't you move too slow
Our best of times ahead - and we'll be fine
Be sure to make them last a lifetime
The best of times for us tonight.
Smile now
Feel free
These memories
Will last
For all of days

So we're gonna have the best of times,
fantastic times - and we'll be fine
The best of times for us tonight.

No time to waste so make it fast,
No matter what will come our way,
We know the path, the road ahead
Because ours is the only way

So we're gonna have the best of times, some
loving times - we'll be alright,
These are the best of times, fantastic times -
and we'll be fine
The best of times for us tonight.

And ours is the only way
You'll be fine
The best of times for us tonight.

Caroline - Pop Love All Around

I met you yesterday at a friends home.
Could not help staring at you
for a while, so alive

I listen to every word, everything you say
Your heart is pure your passion power
Today you make me sing this love song

Your love for life's like a wildfire burning bright
Come on and let me walk with you for a while

Caroline pop love all around you - all the time
No matter what was yesterday - I feel better
now

Today we share our life the way we want
Sharing with you strangely means having more

You light up the room with your smile - still,
all the time
Just a beautiful being - never fading away

Our love today s' like a wildfire burning bright
Come on and let me walk with you a little longer

Caroline ...pop love all around you - all the
time
No matter what was yesterday - I feel better now

Caroline pop love all around you - anytime
Nothing ever felt better - making me lose my mind

No warning sign
Saying
Spirit contagious
And we stayed together
And I feel fine

Caroline pop love all around you - all the time
No matter what was yesterday - I feel better now

Caroline pop love all around you - anytime
Nothing ever felt better - making me lose my mind

Let me walk with you
A little longer

Lido Nightdrive

Get in brother Lets cruise tonight
Along the miles of road ahead

Rain has stopped and night heat s' back
Bars are closed and the quiet's alright

We'll drive on 'til morning light

A cruise along the beach road
With no care in the world
Never felt better anyway
To be so alive

To the mainland and turning around
The radio carries the tune

The groove's cool the feel alright
Our take is a soul full night

Lets drive on 'til morning light

A cruise into the sunrise
With no care in the world
Never felt better any day
To feel so alive

Lido Nightdrive
A cruise at the sea
We never felt so fine and free

Lido Nightdrive
The Wind and the moon
No arrival 'til the sunshine's here

Lido Nightdrive
A cruise at the sea
We never stop, what a sight to share

Lido Nightdrive
The wind and the moon
We'll drive and drive - no worries, no care

Along the beach for all the miles
No dead end sign ahead

Break of dawn with golden lights
Our ride is a soul-filled drive

We cruise on - its the end of night

A cruise along the beach road
With no care in the world
Never felt better anyway
To be so alive

A cruise into the sunrise
With no care in the world
Never felt better any day
To feel so alive

Lido Nightdrive
A cruise at the sea
We never felt so fine and free

Lido Nightdrive
The Wind and the moon
No arrival 'til the sunshine's here

Lido Nightdrive
A cruise at the sea
We never stop, what a sight to share

Lido Nightdrive
The wind and the moon
We'll drive and drive - no worries,
no care

Lido Nightdrive
No worries, no care

The Genie's Out

Here we are
Good times have passed
You're complaining now
Every day
Sharp word sniping hurt me
Nothing seems to satisfy

Maybe it is better for us to part our ways
I don't wanna listen to you anymore
This way

So this makes you feel any better?
Hey hey hey
Are you happy the way you talk?
So this should make things feel any better?
Hey Hey Hey
Is it really necessary
To hurt each others soul
Let go, never mind - the genie's out

And you let him out
You need change

Just say so
Why not think before you talk
Irreversible loss of love

I never thought you leaving me
Would ever be a real thing
But here we are you're shootin away
This way

Maybe it is better for us to part our ways
I don't wanna listen to you anymore
This way

So this makes you feel any better?
Hey hey hey
Are you happy the way you talk?
So this should make things feel any better?
Hey Hey Hey
Is it really necessary
To hurt each others soul

Let go, never mind - the genie's out

Warm Wind

I see you every night, in my dreams,
passing by,
here and now
N'everybody smiles at you, hair flying
summer winds
I wish I would be brave enough to dare
some more
But, no

Lovely
Beauty
What can I say
Engaging
Grace
The sight of you
Too close and far, far away

Tenderly warm wind
Alright
Walk with me now in the warm wind
Tonight

Could I let you not know I am here,
But would you even hear
What could be so wonderous
Could also turn to fail
And even if I said Hello
You might just walk right through
Apparition
I am here
I wish you'd
Be
Seeing
Me

Lets take a walk in the warm wind
Tonight
Let me feel you as my warm wind
Tonight

I am just quiet now, not strong enough
to make a
move right now
It's the dreams cut ending that drags me down
already now
I wish I would be woke enough to dare
some more
Not tonight

Blinding Torment
I can't get enough
Excruciating Pain
Why won't you turn around
So close and yet so far, far away

What can I do
Too close and yet so far, far away

Lets take a walk in the warm winds
Tonight
Let me pretend you are here with me
Tonight

Would You

We were always fine, for so many years
Seeing this world together and living well

We were always there for one another
And I still love you with all my heart

But something changed
After the night before
Are you telling me all
I hope you still see the good in us
I hope

Some argument about life and possibilities
Was it really what drove your heart

Something changed
And I don't know how
And now I have to leave
Asking myself now

Would you be here after all we said
Would you keep your place in our home
Would you care about us; The way were
Would you hold on to my hand

I wish I could be with you now

Would you stay with me, as you did all these years
Would you be here when I return
Would you care about us; The way were
Would you hold on to this love

Would you let me tell you all my thoughts
Would you let me into your heart - again
Would you care about us; The way were
Would you join in to work on this love

Would you be here after all we said
Would you keep your place in our home
Would you care about us; and what
we found
Would you hold on to my hand

I wish

Man Of The hour

Here it comes your way
Situation precarious
Its been burning all night
This could be your lucky day
You are here its already felt all way
Make a decision
And save all souls
Speed it up
No looking back
Don't get it wrong
Your in

Its your time now

Hey dude, your the man of the hour
The best of us no doubt
Timing sublime, the man of the hour
For you love is all around

Hey man listen,
Your selfless motion
For the better, this is your moment
There is always a place for you
The man of the hour

You made a difference
An impossible choice
You prevailed the blaze
Your the man at a thousand degrees
You did it for all and its fine
You chose the direct way
And cleared the path
You are ready now
Didn't get it wrong
No looking back
Your the man

Its your time now

Hey dude, your the man of the hour
The best of us no doubt
Timing sublime, the man of the hour
For you love is all around

Hey man listen,
Your selfless motion
For the better, this is your moment
There is always a place for you
The man of the hour

Hey dude, your the man of the hour
The best of us no doubt
Timing sublime, the man of the hour
For you love is all around

Hey man listen,
Your selfless motion
For the better, this is your moment
There is always a place for you
The man of the hour

Man of the hour
The man of the hour
For you love is all around

With A Little Love

With a little love
From me and you
We reach out for one another

With a little love
From me and you
Life's gonna be much better

Brother lift us up
Sister share your strength
We are in a band
Day by day

We spent our life together dear friend
I'll be there for you as you for me

It won't be easy all of the way
We'll stand our ground together

Mothers fathers always there
Now its up to us - much better

Brother lift us up
Sister share your strength
We are in a band
Day by day

Know that you are not alone my dear
Lets get up and make the move together

With a little love
From me and you
We reach out for one another

With a little love
From me and you
Life is gonna be much better

Brother lift us up
Sister share your strength
We are in a band
Day by day

Bar Bahía

Going down this desert road
Reached omega point
Blinding mind and soul

How about a Singapore sling
My thirst so strong
Spinning out of control

There's no shade to the rescue
And even water would be fine
I don't care I don't mind

I'll see you down at Bar Bahía
Where Fagen doobies all day long
They're ice cold down at Bar Bahía
I'll meet you there
Lets see us there
And all our friends
Playing at Bar Bahía

Your mirage just fades away
My body needs to feed
On delicious liquids cold
I can't keep on going on for long
My time runs out
Sun's burning here too strong

Then at last I realise
I am almost there,
The beach ahead,
So close, so very close

I'll see you down at Bar Bahía
Where Fagen doobies all day long
They're ice cold down at Bar Bahía
I'll meet you there
Lets see us there
And all our friends
Playing at Bar Bahía

And all around
Orders echo through the air
I'm finally free and made it to my place
Bar Bahía, my paradise

I'll see you down at Bar Bahía
Where Fagen doobies all day long
The groove's cool at Bar Bahía
I'll meet you there
Lets find us there
And all our friends
Playing at Bar Bahía

I'll see you down at Bar Bahía
Where Fagen doobies all day long
They're ice cold down at Bar Bahía
I'll meet you there
Lets see us there
And all our friends
Playing at Bar Bahía

Playing at Bar Bahía

All Your Comforts

My Dear
I give it to you straight

You think you're a realist, but rather belief in stars?
Wearing an alloy cap, made sense of it all
shots and nano-bots - it always was Them -
You know it all

Man, where do you think all your things are coming from
And you have it all
All your comforts now

All your comforts now
Its warm inside
You're comfortable
And the TV is playing your favourite show

You believe in the prepper stile, sharing all your views
all the time
Are you not actually bored - is it exciting - bringing
others to fear
Man, where do think all you own is coming from

And you have it all
So make peace please

Don't forget we are all in this together
Listen, too, think, remodel and apply
Real strength is when changing your self

And you have it all
All your comforts now

All your comforts now
Its warm inside
You're comfortable
And the TV is playing your favourite show

Lets work this thing together
Lets help each other out
Lets join the fight right now
And Hope for a better world
You can end this division
And the lying all around
It will save our souls
If you find a way
From here and now

As we are in this together here, join in
or please accept the non-inciting row
We have come so far, lets get on together
for the better of our lives
Inequalities remain no doubt, please join in
designing progress
You have all you need

We can build a better place - for youa
nd me and all
And there is no other way
Lucky you, join in - you have it all

All your comforts now
Its warm inside
You're comfortable
And the TV is playing your favourite show

All your comforts now
Its warm inside
You're comfortable
And the TV is playing your favourite show
