

# *New Heart*

# Modest Oda

(Release: February 10<sup>th</sup> 2023)

With his single *New Heart*, the former Graz-based, now Viennese musician **Modest Oda** releases a song that sounds just like a new beginning. When he sings "New life, new high, new way, new start", you want to leave everything behind and start all over again. Musically, Modest Oda goes back to his own beginnings, so the electric guitar has found its place again. The effective vocals are carried by a wave of synth pads and guitar sounds.

## Bio

Modest Oda is the cutting off of one's own roots. Blurring of self-imposed boundaries. The abstraction of a voice, which – in its pure form – was heard on number 1 of the „Radio Soundportal“-charts, on the Kasematten stage in Graz, the Arena Vienna or opening up for Lola Marsh.

The origin is in 2010 and in alternative rock. Guitar and bass are now being replaced by two synthesizers, the drums are exchanged with a drum-machine. The vocals are redesigned with a combination of various effects and digital harmonies. On stage, Modest Oda returns to a band line-up without losing any authenticity.

**Modest Oda**
