

Speaker Biography

Neville Hargreaves

Vice President, Waste to Fuels, Velocys

Neville is responsible for Velocys' waste to fuels business, including the commercial, financial and corporate development of the Altalto waste-to-jet-fuel project in the UK. This project is planned to take half a million tonnes of municipal and commercial solid waste, otherwise destined for landfill or incineration, and use it to make clean sustainable jet fuel.

Neville's 30 years of industrial experience includes a wide range of technical and commercial roles over 12 years at Exxon, as well as four years with Bain and Company, the strategy consulting firm. He has led teams to deliver complex projects with many stakeholders across global public companies, brought over 70 new products to market, led two small businesses and launched a successful innovation programme for the UK government.

He holds an MA in chemistry from Cambridge University and a PhD from University College London, and is a Fellow of the Royal Society of Chemistry.
