MASTER WEAVERS 1692

Bäste Kund

Vi är ett globalt varumärke med rötterna i svensk formtradition. Vi skapar inspirerande design som väcker hemlängtan var dag, både nu och i framtiden.

Genom att erbjuda produkter som ligger rätt i tiden blir vi ett valbart alternativ. Med inspiration från skandinavisk mönsterskatt och natur skapas kvalitativa användbara produkter för dagens och morgondagens konsumenter. Vi stödjer svenskt hantverkstradition och gör den tillgänglig för fler, genom intressanta designsamarbeten. Vi behåller tillverkningen med moderna vävtekniker hemma i Horred, Sverige. Vi tar ansvar för en hållbar framtid.

Dear customer

We are a global brand with our roots in the heritage of Swedish design. We create inspiring designs which make you hanker for home every day, both today and in the future.

By offering a range of contemporary products, we are the logical choice for our customers. Drawing inspiration from nature and the treasure trove of Scandinavian patterns, we create high quality, practical products for the consumers of today and tomorrow. We support the Swedish handicraft tradition, making it more widely accessible through stimulating collaborations with designers, and our manufacturing and modern weaving techniques are rooted on home soil here in Horred, Sweden. We are fully committed to ensuring a sustainable future.

Våra råvaror

Ekologiska råvaror

Vår råvara består av garner spunna av ekologiska naturfibrer. Vi följer traditioner från gångna tider då allt ingick i naturens kretslopp. Naturfibrerna har också andra mer värden såsom ögats intryck och handens känsla.

Ekologiskt lin

Fibrerna till vårt lingarn odlas i norra Frankrike och i Belgien, ett geografiskt område som har världens bästa klimat för linodling.

Lin svarar för endast ca 1,5 % av världens förbrukning av textilfibrer.

Ekologisk bomull

Bomull svarar för ca. 50 % av världens fiberförbrukning. Tyvärr odlar man bomull på arealer utanför dess naturliga utbredningsområden vilket medför konstbevattning och hög förbrukning av kemikalier. Ekologiskt odlad bomull kan bara odlas inom det naturliga utbredningsområdet, och är bra för den lokala befolkningen och dess miljö. De ekologiska odlingarna har på senare år ökat, (vilket är bra) men detta löser inte världens behov av fibrer.

Framtidens textilfibrer

Vi är övertygade om att utvecklingen genom forskning går mot fibrer som framställs av biomassa från växtriket, ex. gran, tall och bambu.

Ett bra exempel är viskos, som på senare år utvecklats med avsevärt förbättrade egenskaper.

Our raw material

Eco raw material

Our raw material consists of yarn spun of organic natural fibre. We follow traditions from times past, when everything was integral to nature's cycle. Natural fibre also offers other added values: easy on the eye and pleasing to the touch.

Eco linen

The fibre in our linen yarn is grown in northern France and in Belgium, a region with the world's best climate for growing flax.

Linen accounts for only about 1.5% of the world's consumption of textile fibre.

Eco cotton

Cotton accounts for about 50% of the world's fibre consumption. Unfortunately, cotton is grown in areas outside its natural range, requiring irrigation and heavy use of chemicals. Organically grown cotton can only be grown in its natural area of distribution and it benefits both the local population and its environment. Organic agriculture has increased in recent years, which is good, though it does not satisfy the world's need for fibre.

Textile fibre of the future

We are convinced that research developments are moving toward fibre produced by biomass from the plant kingdom, such as spruce, pine, and bamboo.

One good example is viscose, which has been significantly developed and improved in recent years.

GOTS

Global Organic Textile Standard (GOTS) den världsledande standarden för miljömärkta textilier tillverkade av certifierad ekologisk fiber. Kriterierna ställer krav på spårbarhet, högsta möjliga miljöhänsyn och krav enligt sociala kriterier. Certifieringen omfattar hela kedjan från odling till färdig textil.

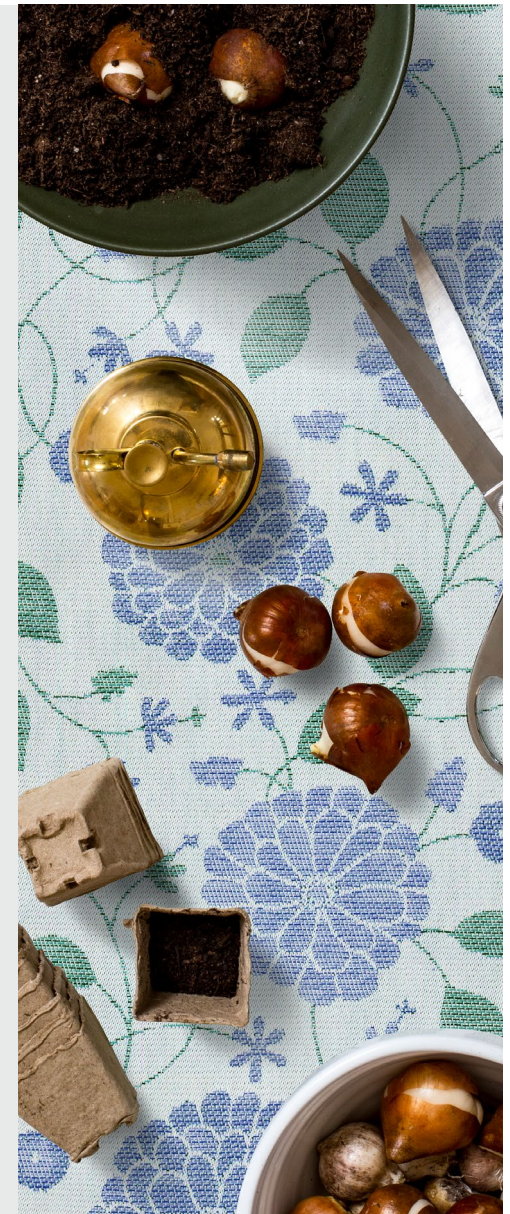

The Global Organic Textile Standard (GOTS) is recognized as the world's leading processing standard for textiles made from organic fibres. It defines high-level environmental criteria along the entire organic textiles supply chain and requires compliance with social criteria as well.

MARIUS

The designer Unn Søliland made history in the 50's, designing new handknit patterns, and using wool with bright colors. That was very unusual at the time. This became popular - and "Norwegian sweaters" became great international fashion. The Marius design later became a Norwegian icon, by being the most handknitted pattern in Norway over the last 65 years.

She later developed her hand-knit designs for unique collaboration with top french fashion designers, such as Christian Dior and Hubert de Givenchy, who presented her exclusive handknitted creations at their french catwalks in the 80's.

In 2002, she was honoured the Norwegian Royal Medal of Merit in Gold, for her lifelong pioneer work of developing handknitting and making norwegian wool-designs famous internationally.

Tvättråd / Laundering instructions

	Följ angiven temperatur	Varorna tål upp till 85°.	Follow specified temperature	Products tolerate up to 85° C.
	Hög vattennivå	Ger slätare tvätresultat.	Use high water level	For fewer wrinkles.
	Tvättmedel	Vi rekommenderar tvättmedel utan blekmedel och optiskt vitmedel för alla våra produkter. Viktigt att veta: Oblekta naturgarner har sin naturliga ursprungsfärg vilka bleks successivt vid varje tvätt.	Laundry detergent	We recommend laundry detergent without bleach or optical brighteners for all our products. Important to know: unbleached natural yarns have their original natural colour, which gradually bleaches with each laundering.
	Hängtorkning	Kan tillämpas på alla varor, minskar mekaniska slitaget.	Hang to dry	Appropriate for all items, reduces mechanical wear.
	Centrifugering	Normal, ta upp varorna genast.	Spin dry	Normal setting; remove items immediately.
	Torktumlas ej	Lin och bambuviskos får ej torktumlas. Risk för att varan förstörs. Bomullsvaror tål torktumling. Vi rekommenderar dock inte detta, då behandlingen är energikrävande och orsakar onödigt slitage på textilierna.	Do not tumble dry	Do not tumble dry linen and bamboo viscose. This may damage the product. Cotton products can be tumble dried. However, we do not recommend this since tumble drying is energy-intensive and causes unnecessary wear to textiles.
	Strykning	Högsta värme. Fukta först och stryk i dukens längdriktning.	Ironing	Maximum heat. Dampen first and iron parallel to the warp (length) of the fabric.
	Mangling	Rekommenderas endast till hellinne. Dugar som innehåller bomull blir slätare med strykning.	Mangling	Only recommended for pure linen. Fabric containing cotton turns out less wrinkled with ironing.
	Tips	Vid tvätt av servetter, tvätta alla servetter samtidigt så behålls en enhetlig nyans.	Tips	When laundering napkins, wash all napkins at the same time to retain uniform colour.
	Fläckborttagning:	Försök att ta bort fläcken genast, eller mildra effekten genom att skölja eller badda bort det värsta. Rödvinfläckar kan mildras genom att badda med vatten. Strö sedan salt på fläcken och låt vila ett tag innan du tvättar duken. Vita dukar kan behandlas med starkare blekmedel. Skall utföras i maskin annars risk för ojämnt resultat. Fläckborttagningsmedel kan användas, dock med risk för färgförändringar runt fläcken. Se till att ha rinnande vatten tillhands och skölj väl så fort fläcken försvinner.	Stain removal:	Try to remove stains immediately, or minimise damage by rinsing or sponging off the worst of the stain. Alleviate red wine stains by sponging with water. Then sprinkle salt on the stain and allow to rest for a while before washing the fabric. White tablecloths can be treated with stronger bleach. This should be done in the washing machine to avoid uneven results. Spot remover may be used, although there is a risk that colours around the stain may change. Make sure running water is available and rinse well as soon as the stain disappears.

Kundanpassad vävning - Customized weaving

Vi skapar en unik produkt tillsammans.
För ert ändamål och verksamhet.

Specialdesign - väv ditt eget mönster
Svensk textiltradition sedan 1692
Snabba leveranser
Kvalitet med ansvar
Närproducerat, mindre CO²-utsläpp
Formstark svensk design
Ekologiska produkter
Made in Sweden

Let us create a unique product together.
For your applications and business.

Customized design - weave your own pattern
Swedish textile tradition since 1692
Fast delivery
Quality with responsibility
Distinctive Swedish design
Organic products
Made in Sweden

**MADE IN
HORRED
SWEDEN**

Ekelund är ett globalt varumärke
med rötterna i svensk formtradition.

Vi skapar inspirerande design
som väcker hemlängtan var dag,
både nu och i framtiden.

*Ekelund is a global brand with its roots
in the heritage of Swedish design.
We create inspiring designs which make you hanker
for home every day, both today and in the future.*
