

Easy Coin Digital Freedom

Free personal advertising management system

Easy Coin Digital Freedom was born from the idea of giving the possibility to all users to advertise themselves, to give voice to projects and to diversify the world of social networks. We created Easy Coin Token (ECDF) to make this service accessible to everyone, without excluding anyone, our project concerns everyone.

Easy Coin Digital Freedom

Free personal advertising management system

We have relied on Ethereum technology to make the process faster and more intuitive, thus approaching the beginner user, with an erc20 token.

Free personal advertising management system

- We create APP to let all users, from the expert to the beginner, enter the world of cryptocurrencies, offering faucets, exchanges and cloud mining.
- We offer advertising plans for social networks.
- We are working to create a platform where you can find news, apps, industry sites, everything related to the world of cryptocurrencies.
- Constant contact to make the Easy Coin experience as fluid as possible.
