

# Toxicke The Piratfoxsnake

This is Toxicke, The Piratfoxsnake. He looks dangerous, but he is a good friend.

I found him in a lonely pizzeria. He actually lives in the desert, but people took him with them. Toxicke is 105 years old, that's young for his race.

He eats meat and fish, he eats very much. The Piratfoxsnake has got a snake tail, a breed upper body and a head of a fox, eye patch, a hook and a golden tooth of a pirate. He likes eating, playing, playing and cuddling. Toxicke doesn't like meeting strangers and my dad.

He looks like an alien, but he is lovely. Toxicke, The Piratfoxsnake is as big as a horse, but he is stronger than a horse. In fact, he is the strangest animal in this world.

Toxicke is cuddlier than a Golden retriever.

He is so exotic. In my mind Toxicke, The Piratfoxsnake is the nicest animal I knew.
