

PROJECT NUMBER : Projet 2020-1-FR01-KA229-080514_1– LOVE MY CITY

Presentation for the school

At the end of the project the students made a huge presentation about their LTT's and tried to share some of their experiences.

Pupils from age 10 to 15 came in groups and were introduced to what Erasmus+ is, its purpose. And they were sent out in small groups to visit the countries our students had visited themselves.

Each place they heard about the theme and the activities. And each place they were to try some of the things our students had tried.

For Romania it was group dance

For Turkiye it was spoon dance

For Austria it was the Vienna Waltz

A group of Erasmus-students are ready to present the Erasmus project and LTTA's for the local community.

Presenting the trips for students age 10 - 15 in

small groups

Erasmus-students presenting about the trip to Romania to one of the groups of pupils
