

The T15 SPEYE

Introducing the SPEYE: a cutting-edge fixed-wing drone. Powered by a top-tier combustion engine, the SPEYE offers unmatched reliability for critical missions.

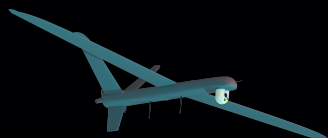

With a 5 kg payload capacity, it excels in Intelligence, Surveillance, and Reconnaissance (ISR) tasks, boasting more than 3 hours of endurance at 100 km/h.

Communication is seamless with an up to 50 km Line of Sight (LOS) link. The payload camera (Optional) delivers high-res video through a secure digital channel, complemented by live flight info from the nose camera (FPV) with an OSD overlay.

For control versatility, connect any handheld remote controller via the trainer port.

Specifications:
