LEARN KITESURFING WITH US

Punta Chame is the perfect place to learn kitesurfing, with its 5km long sandy main beach and cross-on shore winds, mostly between 12 and 24 knots. We teach you in a safe way, in private or semi-private lessons including headsets to stay in contact with you at all times. The first 1-2 hours are spent on the beach with the newest technology soft kites which makes learning safer and easier. As soon as you can control the kite, we hit the water with a tube kite, learn to move with the kite through the water before we finally start with the board. Let's have some FUN together!
