Smaller **NHS 3.0** "to go" with energetized mug

NHS 2.0 in a big container

Due to the increase in geoengineering (commonly known as chemtrails) and the constant spread of technical radiating sources (electrosmog) people, animals and plants are more and more affected.

An easy-to-use antidote is the NHS. The Nature Harmony Station, which is based on the orgone concept according to Prof. Dr. Wilhelm Reich, by Urs Wirths.

Workshops on how to build an NHS yourself

Attend one of our workshops on building an NHS and build your own NHS 2.0! We regularly offer our workshops at the Möhnesee in Germany and at many more places in Germany, Europe and Canada.

For datas and further information please visit our website *www.n-h-s.info* oder unter *www.energieprodukte.org*

torus effect

An energetic torus is formed with a central cylinder of 70 to 110 km height and 8 to 12 km radius, which visibly clears and harmonizes the sky. All - old and new - earth grids are strengthened and synchronized through resonance. As a result, all life energy processes in plants, animals, people... are set in natural vibrations and strengthened – with numerous visible and perceptible positive changes

The mode of action is based on quantum physics, the discoveries of Prof. Dr. Wilhelm Reich, Schauberger, especially Urs Wirths, the developer of NHS 2.0 and NHS 3.0 and many more.
