BUTCHERS & BICYCLES®
C O P E N H A G E N

**IMAGINED
AND REALISED
IN COPENHAGEN**

The MK1-E Gen. 3 stands for high-quality without compromises. Over time the patented BUILT TO TILT™ cargo bike has proven its durability and functionality.

We understand the pain points and respect the needs of modern urban families which is why we strive to achieve the best bikes in order for you to only focus on the adventures ahead.

READY FOR A CHANGE?

Butchers & Bicycles was founded on a dream to make a real difference for families all over the world.

From the heart of Copenhagen Meatpacking District, we built our company with the sole purpose to help families spend more quality time together.

Convert everyday headaches to easy and enjoyable bike rides with complete focus on what is important. Have fun with your children, be present and show them how life can be full of adventures every day.

**BUILT
TO TILT™**

PERFECT FOR KIDS

Having your children in front of you is great. They are safe and comfortable, riding through the city or landscape on a thrilling roller-coaster sensation. Something you can be sure will bring smiles to their faces.

SAFE & COMFORTABLE

Because the MK1-E Gen. 3 leans into the turns it is both fast and safe at the same time. The 3 wheels make the cargo bike stable to ride with children and the ability to lean into the curves makes it comfortable on uneven roads and while turning.

NO SWEAT TO RIDE

When you are going uphill, riding long distances or bringing heavy loads you will not even break a sweat. With the integrated and very powerful Bosch Performance Line CX Gen4 motor, you can turn the assistance up or down as needed.

**DANISH DESIGN
DAWARD
WINNER
2020**

**‘MK1-E GEN. 3’
TAILORED
TO YOU**

Riding the MK1-E Gen. 3 is truly a completely different experience. It's simply more safe, more intuitive and a whole lot more fun!

WHY THE ‘E’ MAKES THE BENEFITS PILE UP

‘E’ stands for electric. What began as a niche movement has quickly become a trend and eBiking is gaining popularity very fast. And for good reason. Regardless of who you are and how you use your bike, the eBike’s electric power boost makes cycling more relaxing, you travel longer distances and you reach your destination feeling fresher. Choosing an eBike will improve your life in many ways.

The environment benefits
eBike users go easy on the environment. Half of all car journeys are 5 kilometres or less, and according to the Environmental Protection Agency the CO2 emissions of a car are around 40 times higher than those of a bicycle with a battery-powered motor.

Headwind? Which headwind?
The eBike feels like an invisible “hand” that gives you a gentle push and makes uphill riding effortless. Never mind the headwinds - just go!

Keeps you fit, makes you mobile
Despite the power assistance, eBikers still have to pedal to get moving. And it is up to you to decide how much power assistance you want or need from the motor. One thing is for sure - you will get on your bike more often.

Perfect for commuting
Who needs to spend valuable time waiting in traffic? With an eBike you can easily commute 20–30 km each day and not worry about getting caught in rush hour.

Smarter for your wallet
eBikes are less expensive than cars to both buy and maintain. Forget fuel costs, high insurance premiums, car taxes, parking charges and tickets.

Fun factor
eBikes makes cycling less work and more fun. Get from point A to point B while getting fresh air and a chance to see your city from a different point of view.

AWESOME PERFORMANCE

The MK1-E Gen. 3 uses the best in class e-motor offering you an effortless ride.

Max. torque
With a torque of up to 85 Nm, the Bosch Performance Line CX Gen4 provides powerful acceleration despite its compact size.

Max. drive
Lasting support for riders enables sufficient power, fast sprints and a very sporty riding style.

Drive Unit
Powerful support up to 25 km/h, even on steep mountain rides.

“The MK1-E Gen. 3 Vario offers comfort combined with rider control”

LONG DISTANCE? NO PROBLEM!

Dual battery option available, doubling the assisted range

The MK1-E Gen. 3 comes with a 500 Wh battery, which will provide assistance up to 70 km, depending on conditions and selected assist level.

Add an additional 500Wh Bosch Battery to extend your range and reduce the need for charging.

The primary battery is mounted in the cargo box and the additional battery is mounted below the top tube.

THE COMFORT ZONE

Child Seat for Two

Safety above all. The Child Seat for two is designed to offer maximum comfort and safety for kids from approx. 1 year of age. With comfortable rainproof cushions and 5-point seat belts, your kids will be safely positioned in the cargo box - ready for their roller coaster ride through the urban landscape.

LIGHT UP THE STREET AND BE SEEN

Supernova lights

When you need to light up the streets, nothing beats the Supernova. Turn on the lights and even the darkest street is lit up. This powerful light system is street legal in all of EU and is connected to the Bosch eBike battery. The set consists of two V52 1s front lights and one E3 tail light.

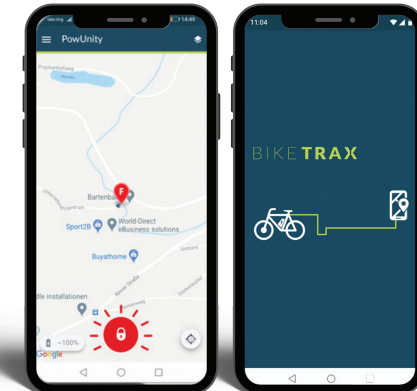

GPS TRACKER

Invisible theft protection for your e-bike Powunity

In the event of theft or unauthorized use, the GPS system becomes active and immediately sends an alarm to your smartphone.

- 1-year free subscription
- Integrated SIM card with coverage in EU
- Free smartphone app.
- 2 Year Guarantee

A HANDY COVER FOR THE BOX

Flat Cover

For the dry season, when all you need is a cover for the box.

Roll the cover back and secure it with the elastic band and your kids can step right in.

Made from water-repellent fabric designed for outdoor use.

SOMETIMES IT RAINS

hood with Skyview

For the wet season, when you need to keep your children dry.

Made from water-repellent fabric designed for outdoor use.

The large skyview window and rear window both roll up making the MK1-E Gen. 3 convertible for the sunny rides.

THIS IS YOUR PORTABLE GARAGE

Parking Cover

If you want to take extra good care of your MK1-E Gen. 3 we recommend the Full Bike Cover made from water-repellent fabric designed for outdoor use.

**KEEP IT SAFE
AND SOUND**

130 cm frame lock chain

Additional security for the ABUS frame lock for double protection.

LEAVE YOUR BELONGINGS LOCKED UP

Lockable Glove Box with elastic straps

We have designed a very handy Glove Box where you can store and lock away your belongings. The lid for the Glove Box includes practical elastic straps, that allow you to quickly secure any item that otherwise might fall off when riding.
