THE ESSENCE

The URTON-Retreat '*In Unison with the URTON*' gives you direct access to the so-called "music of the spheres" as the URTON of creation, a never-ending source of power that you can awaken at any time by and within yourself.

The extraordinary effect of the URTON-JETZT® method implemented in this retreat is based on the innovative and synergetic fusion of the eastern ancient tradition of "one-tone-singing" with the western "triadic harmony" whose highest fulfillment was attained by the music of Georg Friedrich Händel and Johann Sebastian Bach.

WHAT YOU CAN EXPECT

A fundamental, practical and experience-oriented introduction to the URTON-JETZT® method by following specific energy, breathing & vocal exercises as well as its hands-on culmination: the collective construction of '*Cathedrals of Sounds*' out of the humming and singing of everyone present.

Feedback

"For me, this is the simplest and most ingenious way to find myself, my strength, my centre. FINALLY my ancestral yearning is satisfied: my soul finds its connection to the divine – every cell in my body is filled with peace and joy, and people's hearts connect without words!! Simply brilliant"
