Everything went very well this month. Me and Miss Pemba decided to conduct a spelling contest but as she was not present here I conducted it and it really went very well. It made a positive impact among the kids as they got a chance to be familiar with various new words. As I was told by Sonam sir to start teaching English to the assistant trekking guides of the village, I started taking their class for 1 hour every evening. For the next month we have a talent show to conduct. Me and Miss Pemba will be working on it.
