Hi there! I might be your tour guide so that you need to know what sort of person I am. I had been working in New Zealand for 22 years till I came back to Japan in 2006. Passed the national guide exam in 2007 and registered in Tochigi prefecture where I live. I can take you around all over Japan but I prefer guiding Nikko area to other far areas.

I used to play golf a lot, but I quitted after I came back to Japan. However, I am still walking in the bush and I am now interested in watching birds which visits my garden. I think I have to start bird watching as my pastime.

My happiness is making you happy. Hope to see you soon.
