

【 On-Site print lab : price list 】

『 Printing without retouch 』

Your work will be printed without retouching/adjustments for color and contrast, after we check whether the file has no problems so that we could proceed. (We will contact you before printing, if we found a problem on your file to print.) This printing will work better for the file which has already been retouched, and whose color you would not want to change.

◎ File format to print with this service: PING, JPEG, or TIFF

◎ Turnaround time : 2-3 business days

paper size (mm)	Epson Premium Photo Paper Niche flameproof cloth	Fine Art paper (Hahnemuhle, Canson Infinity, SiHL Masterclass)	Ink and work fee to print on your paper (The paper must be inkjet paper and made by a manufacturer.)

● The above prices include sales tax.

【 note 】

- Other sizes will also be available to print. Please contact us for inquiry about pricing.
- In the case that you bring in your own paper to have your images printed on it, the paper must be made by a manufacturer.
- The above prices include cost for trimming prints.

『 Retouch + Printing 』

The printing director will have a dialogue with you; listening to your intentions of the work and how you would like to make adjustments on the image. We can make suggestions for better adjustments, and elaborate the finish. We can also match colors to your original work in order to make a reproduction of it. The final print will be made after you confirm a proof.

◎ File format to print with this service: RAW, TIFF, or PSD (Photoshop format)

◎ Turnaround time: 4-5 business days

● The above prices include sales tax.

【 note 】

- 1 test print/proof is included in the above prices. Additional fee will be charged for making more adjustments and proofs.
- In the case that you bring in your own paper to have your images printed on it, the paper must be made by a manufacturer.
- When you bring in your own paper, not only the final print, but also proofs will be printed on your paper.
- Other sizes are available to print. Please contact us for inquiry about pricing.
- The above prices include cost for trimming prints.

『 On-the-spot Retouching + Printing 』

The printing director will work together with you, and make adjustments on your images while you are also looking at the computer display with the director. You can get your images retouched on the spot according to the intent of your work, so that subtle adjustments for colors and partial contrast can be made as desired. Proofs will be printed, and after you confirm a proof, the final print will be made immediately. Then you can take the print home. This service also works well for you, when you are in a hurry to finish printing. Please make a reservation for a session of your work.

- © The file format to bring in : DNG (RAW file), TIFF, or PSD (Photoshop format)
 - note: Please export your Ai (Illustrator format) file to TIFF format before bringing in. We print with Photoshop.
- © Turnaround time: it varies depending on the work; number, size, and details of the images to work on and print. Please contact us in advance, and speak with the printing director about details of the work to get an estimate for time and cost. Refer to the guide below for scheduling.

Guide	Time needed for the process		Number of prints that can be made within the time	Print size to produce
It takes	1 hour	to complete making (including retouching, printing proofs and the final print)	1 – 2 pieces of	A3 – A2/ 16x20” prints.
	1 - 2 hours		1 pieces of	A1 - B1/ 30x40” print.
	2 hours ~		1 pieces of	B0/ 40x60” print.

Please note that It would take more time to complete the work, in case that you start selecting paper to print, that you need to make an image composite or more elaborate adjustments, and/or that you would like to check more than 1-2 proofs before the final printing.

◆ **Fee:** 35% additional charge on the above fee for 『 Retouch + Printing 』

【 note 】

- On-the-spot Retouching + Printing service is available during office hour, and please make a reservation by e-mail or online form for a printing session for your work.
- When booking, please let us know what paper and size/ dimensions you would like to print. If we don't carry enough amount of the paper or if it is out of stock, it may take time until the paper becomes available.
- If you would like to bring in and print on your own paper, please let us know what paper you will, as we need to set in advance an icc color profile of the paper in our computer. This saves your time to work.
- Please note that it may take longer than expected to complete a work. Especially, image composite requires a lot of time to to make it looking natural and good.
- When making a reservation, pay attention to the time to output an image with the printer. It takes about 40 minutes for printing one B0 size out. (Print setting: the highest quality with bidirectional printing)
- A test print/proof for a work larger than A2 size or 20x24” will be made at half size or smaller of the final print.
- When you bring in your own paper, both test pieces/roofs and the final prints are printed on your paper.

ú Please feel free to contact us for your printing project at info@onsite-art.com or through the contact form on our website.

『 Print lab Rental 』

You can print works yourself at the lab, using our Mac computers, calibrated Eizo display, and Epson large format printer. You have more controls of color and details to visualize your intent of the work. The paper can be selected from our paper in stock, or you can bring in your own favorite paper. No operator is available for the Print lab Rental printing. Workshops are available for both beginners at digital printing and large format printing.

◆ Equipment and software available for Print lab Rental.

- Equipment: Mac computer, 24-inch Eizo display, Printer: Epson SC-P9050G (printable width; up to 1118mm/ 44 inches), and Canon Pro-1 (printable up to A3+/ 13"x19")
- Software: Adobe Photoshop CC[®] Lightroom CC

◆ Fees

- Annual membership registration fee (Your membership card will be issued.) ----- ¥ 3,300
*This is not the case for On-site AIR artists.
- Basic fee for the large format printer rental ----- ¥ 6,300 for 2 hours
(The computer and display are included.) [extended time ¥2,200/h]
- Basic fee for the 13"x19" printer rental ----- ¥ 4,400 for 2 hours
(The computer and display are included.) [extended time ¥1,650/h]
- Basic fee for Print Lab Rental applied to On-site AIR artists ----- ¥ 550/ hour
(Paper and ink fees are not included.)
- Digital print workshop for beginners ----- ¥ 5,500 for 2 hours

e.g. 1: You made five B1/ 728x1030mm prints on Awagami Japanese washi paper with the large format printer.
The total work hour should be approximately 2 hours;

Basic fee for the large format printer rental for 2 hours: ¥6,600 + paper cost for Japanese washi roll paper 800mm x 5 pieces: ¥16,720 + ink cost for 5 pieces ¥6,022 (Please see the table below for paper/ink cost) = Total ¥29,342

e.g. 2: You made four 500x3000mm size print on your own 610mm/ 24"-wide paper with the large format printer.
The total work hour should be approximately 3 hours;

Fee for the large format printer rental for 3 hours: ¥8,800 + Ink cost for 500x3000mm ¥2,250 x 4 pieces: ¥9,900 (Please see the table below for ink cost) = Total ¥18,700

◆ **Price list for paper and ink**

【 For Epson 44”/B0+ printer : 44”/1118mm-wide roll paper is sold in 100mm increments 】

◎ Ink fee is not included in the paper fees below, and will be calculated based on image size after printing.

Image size (mm)	Epson Professional Photo Paper: Semigloss 250gsm	Hahnemuhle/ Canson Infinity Fine art paper Canvas		Awagami Factory Japanese paper SiHL Masterclass Metallic High Gloss Photo	Flameproof cloth	Ink fee when printing on your own paper with 44”wide/ B0+ printer
44”/1118mm roll paper sold in 100mm increments	¥330	¥770	¥660	¥550	¥330	¥0.2/scm

● The above prices include sales tax.

【 Paper & Ink fee : Canon 13” wide/ A3+ printer: Sheet paper is not available to buy at the lab.

Please bring your paper. 】

paper mm	Ink cost is calculated based on image size of a print
printable from A4 size (210 x 297mm) to A3+/13”x19”(329 x 483m)	¥0.3/scm e.g. 40cm x 25cm x 0.3 = ¥300

● The above prices include sales tax.

【 Note 】

- Annual membership registration is required to use the lab rental. (This is not the case for On-site AIR artists.)
 - Please make a reservation in advance to use the lab rental, and contact us by e-mail or through online inquiry form. The service may not be available to make a same-day reservation.
 - The Lab Rental is available between 10:00am ~ 6:00pm. Please book a minimum of 2 hours for your session.
 - When making a reservation, pay attention to the time to print your image out. It takes about 40 minutes to print out just one B0/ 40x60" image. (with the print setting; the highest quality with bi-directional printing)
 - As for cancellation, 50% of the Basic fee will be charged if you cancel your reservation one day before, and 100% of the Basic fee will be charged if you cancel on the day of your reservation.
 - We recommend to bring your files copied onto your HD or USB stick, and use our computer to print your images. You can bring your laptop and print with it; however, please install the appropriate printer driver and icc profiles yourself on your computer.
 - We accept inkjet paper made and sold by a manufacturer, not handmade by you. Printing on non-inkjet or rough textured paper causes for clogging of our printer head.
 - Please let us know in advance what paper you will bring in the lab rental, since the icc profile of the paper needs to be installed on our computer in order to get correct color result on your paper. This saves your time to work in the lab.
 - The maximum width of a roll paper that can be set on the large format printer is 44 inches/1118mm, and the maximum printable length is 39 feet/15m. A sheet paper whose width is shorter than 8 inches/20cm cannot be set on or printed with the large format printer.

The maximum width of a sheet paper that can be set on the A3+/13" printer is 13 inches/483mm, and the minimum width is 3.5 inches/89mm. The maximum printable length is 26 inches/660mm. No roll paper can be set on the A3+ printer.
 - Borderless printing is not recommended as the paper edges will easily get smeared with ink. We recommend instead printing with crop marks, and trimming the borders after printing.
 - All of the paper and ink used for test printing/proofs will be charged. Even if you got a wrong color result because of wrong print setting, the paper and ink consumed for the print will also be charged.
 - In the lab rental service please also work on trimming borders and packing prints yourself. If you would like to leave it to us, the fee for the trimming and packing will be charged. This work time will not be included in your lab rental hours.
 - Please bring a tube or packing material to take your prints home. Or, these materials, such as thin paper, bubble wrap, and tubes, are available to buy at the lab.
- ú Please feel free to contact us for your printing project by e-mail at info@onsite-art.com or through the contact form on our website.

『 Scanning 』

Why don't you scan/digitize and save your favorite old photo prints, negatives, or pictures you or your child drew/painted? Damaged photo prints could be digitally retouched/fixed, and old photos could be reprinted larger in brilliant color. You could also print on a canvas, and make a reproduction of your original painting. Hasselblad Flextight X5 will be used for scanning films, and the flatbed scanner will be used for scanning drawings and paintings.

© Turnaround time: It varies depending on the type and size of the original. Please see the guides below.

【 Film scanning: negatives / transparencies 】

film format	scanner	scanning fee per frame (general color correction is included.)	file format	retouching fee (dust spotting, scratch removal, matching color, and etc..)	turnaround time
35mm	Flextight X5	¥1,650	tif. jpg.	• Basic fee: ¥1,500 per 15min. • additional fee: ¥1,500/ 15min. 【 note 】 work time varies depending on the file size and print size. Please ask us for a quote.	3~5 business days
120 · 220		¥2,200			
4 x 5		¥2,750			
8 x 10	flatbed scanner	¥3,300	tif. jpg.		7 business days~
	drum scanner	¥ please ask			

• The above prices include sales tax.

【 Reflective scanning: photo prints, documents, drawings/paintings, etc.. 】

film format	scanner	scanning fee per frame (general color correction is included.)	file format	retouching fee (dust spotting, scratch removal, matching color, and etc..)	turnaround time
Up to A4	flatbed scanner	¥3,300	tif. jpg.	• Basic fee: ¥1,500 per 15min. • additional fee: ¥1,500/ 15min. 【 note 】 work time varies depending on the file size and print size. Please ask us for a quote.	3~5 business days
A3		¥4,950			
A2		¥6,600			
A1 or larger	duplicate with DSLR	¥ please ask			7 business days~

• The above prices include sales tax.

【 Note 】

- We will try to remove dust on films with an air blower (Rocket blower) before scanning.
- When scanning, we will perform general color correction. If you have requests for color matching to a target, or more precise color correction on the details of the scan/image, please contact us.
- We will provide an estimate for the cost for retouching (color adjustment, dust/scratch removal, etc.) after checking the condition of the film/ photo print.
- Your scan files will be delivered via the internet transfer service. If you prefer to have the scans copied onto a DVD and mailed to you, an additional ¥1,000 +shipping cost will be charged.

★ If you have inquiries about On-Site Print Lab, please feel free to contact us by e-mail at info@onsite-art.com or the contact form on our website.
