## All beginnings are difficult!

We have been on the road for our guests in the Berner Oberland, in Grindelwald, since 2013 and offer our services with a Mercedes Benz S-Class limousine and an SUV for hotels and tourists. We make airport transfers for hotel guests and sightseeing tours to the most beautiful places in Switzerland.

Since 2017 we offer a limousine service and airport transfer also in Stansstad, and our reliable drivers always aim to offer our guests an unforgettable ride, be it to the hotel, airport as well as to meetings, but also with travelling to the most beautiful places in Switzerland. From our experiences that we made over the years you can now benefit with fair prices in first-class.

## Why can you count on us?

Because our company is more than just a business. Every person in our team is unique and we all share the same values. Our passion is not only driving and maintaining our limousines, but also wanting our guests to have an unforgettable journey as a smooth trip to their holiday destination rounds off decisively the holiday experience. Our multilingual drivers (English, French, Spanish, Thai) are discreet, friendly, helpful and absolutely reliable. On request, we can also offer you a Chinese or Russian travel guide.

## VIP service

You want an exclusive and individual assistance at the airport and hotel with maximum discretion?

Then you can choose our VIP service.

We will pick you up at the plane, take care of your luggage and Check-in at the hotel. We undertake the work and you enjoy your free time.

Our offer is not only aimed at celebrities, but at all guests who want a little more comfort.

You have to go to a meeting? Our cars are very comfortable, all offer WiFi and the driver is always available for you.

## Day trips

Day trips with the Mercedes Benz S-class limousine or in small groups with one of our SUV, fair prices for you, so you can relax and enjoy Switzerland in luxury and discover the neighboring countries. Our chauffeurs show you the most beautiful places in Switzerland and they will reserve a table for you in a restaurant, or on multi-days trips gladly find a hotel for you.

## Airport transfer

Airport transfer throughout Switzerland including neighbouring countries at fixed prices.

Waiting times at the airport up to one hour free of charge, and on request our chauffeur will take over the “check in” and accompanies you to the ticket-/passport control.

We have the experience and take them all Inconvenience from you so you arrive at your destination relaxed.

## Ski area transfer

Individually with our ski bus to the Andermatt-Sedrun and Grindelwald ski areas. Our second home is Grindelwald and the Jungfrau region, we know every lift and every cable car, we know all the slopes and descents have skied them countless times and are happy to pass the enthusiasm on to our ski guests.

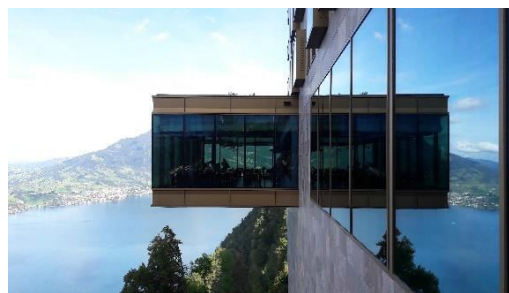

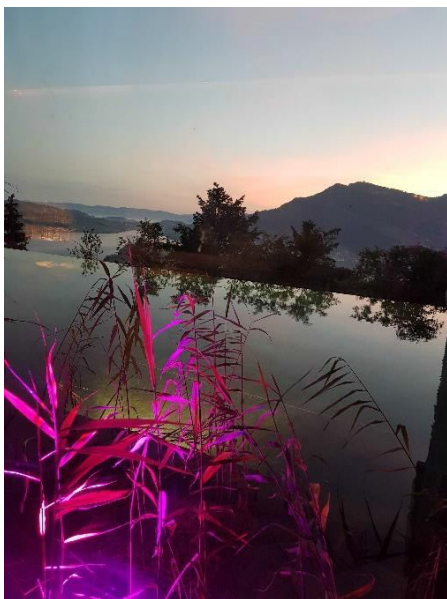

Be it on the First with fantastic slopes and wonderful long valley runs, or the halfpipe in the snowpark, the Audi skicross route. The longest run in Ski World Cup, you can tackle the “Lauberhorn” yourself, on request we can also pick you up in car-free Wengen, after a short apres ski we go with the Wengernalp train down into the valley Lauterbrunnen to the car.

Make your own ski movie on the slopes in the ski area Männlichen or Mürren-Schilthorn. Take part in the international inferno ski race, fast and extremely demanding and the biggest amateur race in the world-famous ski resort Mürren, over 14,9 km for max. 1850 participants. Measure your personal best on the speedcheck slope on the “Kleine Scheidegg”.

# Bürgenstock

The Bürgenstock, also Bürgenberg, is a Swiss mountain (1 128 m. above sea level) above lake Lucerne in the canton Nidwalden. The Bürgenstock Hotel is a health resort on this very same mountain the Alp Tritt. The hotel complex on the Bürgenstock has been called since 2014 the “Bürgenstock Hotel & Resort”.

In the year 1872 the Bucher & Durrer company founded the hotel branch on Alp Tritt. They chose for this the already existing and documented name Bürgenstock. The Bürgenstock houses several luxury hotels and a congress center and has been one since 1872 popular holiday resort and a congress destination.

The highest open-air elevator in Europe, the Hammetschwandlift, is located on the Bürgenstock. He connects the scenic rock path with the Hammetschwand viewpoint, from where you can enjoy an impressive view of lake Lucerne and the surrounding mountains.

# Pilatus

The Pilatus is the local mountain of Lucerne and lies south of the city. The highest point is the Tomlishorn with a height of 2 128 m above sea level. Located on the promising local mountain of Lucerne the mountain station Pilatus Kulm of the Pilatusbahn with the viewing terrace, a panorama gallery and two hotels.

The Pilatus is not a mountain with a closed summit structure, the mountain range consists rather of single ones peaks or a mountain range, of which the donkey is the most striking rock formation. The Pilatus is under land protection, which also today helps keep the ibex in the wild all over the mountain can be found and is one of the great attractions of Pilatus.

In 1860 the Hotel Bellevue was opened on the Pilatus. Queen Victoria stayed in 1868 with her entourage in the hotel.

The Pilatusbahn, the steepest cogwheel train in the world, has been running with a maximum gradient of 48% from Alpnachstad to Pilatus-Kulm at 2 073 m above sea level, a year later after the opening of the railways was followed by the hotel Kulm. The first construction of the hotel Bellevue was carried out from 1963 replaced the now known rotunda, whereby the mountain station of the rack railway was extended.

This enables us to take a round trip from Lucerne to Mount Pilatus by gondola and aerial cableway, then (but not in winter) with the cogwheel train to Alpnachstad and via steamship, motorship back to Lucerne.

We will pick you up at the hotel and drive you to Kriens cable car, at the agreed time we are in Alpnachstad and take you to the ship. You can enjoy the return journey by ship to Lucerne, our chauffeur will pick you up at the shipping quay in Lucerne and bring you back to the hotel.

Numerous sports can be practiced on the Pilatus, such as paragliding, sledging, hiking, climbing (in the rock and in a rope park), mountain biking and tobogganing on the summer toboggan run.

The top of the mountain is illuminated for a few nights. The mountain is like that at night too an attraction high above the city of lights, Lucerne.

# Stanserhorn

The Stanserhorn (1 897 m above sea level) lies between the villages of Stans, Ennetmoos, Kerns, Dallenwill and Oberdorf, south of lake Lucerne and thus in the Unterwaldner Voralpen. On the southeast flank of the Stanserhorn lies at an altitude of 1 226 m above sea level the small village of Wirzweli. In summer is Wirzweli a hiking area, in winter it has a ski lift and a children`s ski lift.

The railway to the Stanserhorn was opened on 23rd. August 1893, at the same time The Hotel “Stanserhorn Kulm” was built. In 1895 an electric headlight with the power of 22 000 normal candles was installed to attract attention to the Stanserhorn.

The revolving restaurant Rondorama was opened as a tourist attraction in 2001, with which one has a panoramic view up to the Vosges (France) and the Feldberg (Germany). Since 2012 you can use the unique double-decker “Cabrio-Bahn” to reach Stanserhorn.

## Information

Trip: We pick you up at the hotel and drive directly to the valley station in Stans. If you wish, our chauffeur will accompany you and show you the attractions on the Stanserhorn, invites you to a guided tour and shows you the fauna and flora with alpine flowers and the circling eagles. You want to hike, our guide will be happy to take you with him, down on the eastern slope of the Chli Horn. A short detour to the Holzwanf Chapel on the Ächerli Pass is definitely worth it, from there you can enjoy a wonderful view in the direction of Obwalden. We continue to hike towards the Wirzwelibahn mountain station, where the summer toboggan run and the playground makes children's hearts beat faster. We take the cable car to Dallenwill, the shuttle bus takes you to the train station and then back to Stans.

In addition to the delta starting point on the Stanserhorn, there are also the public favorites, the marmots in an enclosure.

Of course, you can also hike down from the Stanserhorn and back with a paraglider fly or speed down into the valley on a mountain bike.

Our tip: A spectacular convertible cable car, the cabin holds 60 people, 30 of them on the upper deck people that can be reached while driving via a spiral staircase. On top of that mountain you have a stunning view of the surrounding mountains, the Buochs airfield and surrounding villages along Lake Lucerne.

# Titlis

The Titlis with its 3 238 m above sea level is one of the most popular winter sports and excursion destinations in the mountain group of the Urner Alps. In winter a very nice ski area with Jochenpass, Trübsee and valley run, always worth a trip in summer with its glacier and ice cave welcome cooling. The Titlis rotair gondola has a rotating floor and was the first cable car with rotating gondola worldwide.

The Titlis lies between the municipality of Engelberg in the north and the Sustenpass, which rises upwards Gadmertal in the south, north of the summit ridge, below the summit is ideally suited for the mass winter sports, where most of the tourists stay in winter. The Titlis is alone from Engelberg opened up by mountain railways. Four large cable cars run from Engelberg stages via intermediate stations Gerschnialp, Trübsee and Stand to the mountain station Kleintitlis in 3 020 m altitude. New types of gondolas have been in use since 2014, in which the entire gondola cabin looks in the same way its suspension rotates 360 degrees while driving. So during the drive the passengers get to see the complete all-round panorama.

In December 2012, on the Titlis at 3 041 m the approximately one hundred meter long Titlis Cliff Walk opened. The bridge advertised as the “highest suspension bridge in Europa” spans 500 meters sloping slope.

From the mountain station the way to the bridge goes through a 140 meter long underground tunnel in the south wall window. The other end of the bridge leads to the mountain station of the Ice Flyer glacier chairlift.
