Las cintas tensadas en los respaldos y en las bases de los muebles de esta colección nos traen bellos recuerdos de otros tiempos. Ahora también forman parte del mobiliario más moderno de exterior y su aire retro contrasta con las estilizadas líneas de aluminio que vertebran la serie Min.

With bands stretched across the backrests and bases of the furniture in this collection, we are flooded with beautiful memories of times past. As part of the most modern outdoor furniture, their retro air creates a unique contrast against the stylised aluminium lines that make up the backbone of the Min series.

Dalmatia

Nika Zupanc

Los veranos junto al mar Adriático, la blancura de las piedras de sus playas o el color púrpura oscuro de la madera de sus pinos inspiran las líneas sinuosas y delicadas de la colección Dalmatia. Un perfecto equilibrio entre innovación, tecnología y diseño en una colección de exterior en aluminio que destaca por la frescura de sus líneas, su confort y su solidez.

Summers by the Adriatic Sea, the whiteness of the stones on the beach, or the dark purple of the wood from pine trees, this is what inspired the sinuous and delicate lines of the Dalmatia collection. A perfect balance between innovation, technology and design in an outdoor aluminium collection, which stands out thanks to the freshness of its lines, its comfort and its strength.

Anudando fibra a fibra, minuciosamente, como los pájaros Baya Weaver forman sus nidos, nace esta colección que evoca la tradición de envolver, atrapar y anudar las estructuras de cuerda que dieron origen a la firma hace 100 años. Sentarse, reclinarse en un sillón, tumbarse, mecerse, todo es posible en los más de 15 muebles con un sinfín de posibilidades de composición para crear espacios relajantes en el exterior.

By meticulously weaving each fibre together, just as the Baya Weaver birds build their nests, this collection evokes the tradition of wrapping, grabbing and knotting the rope structures from which the company was born 100 years ago. Sitting or reclining in an armchair, lying down, rocking... everything is possible with the more than 15 pieces of furniture offering an endless number of variations when it comes to create relaxing, outdoor spaces.

Tub

Gabriel Teixidó

¿Quién dijo que las líneas rectas y las curvas no pueden combinarse? Unas aportan dinamismo y las otras dulcifican los contornos. Así de rotunda y atrevida es la colección Tub. Sillas, sillones, sofás y mesas de aluminio en un lenguaje limpio y contemporáneo perfecto para importarlo a las instalaciones más modernas.

Who said that straight lines and curves can't go together? Some add vitality while the others soften the contours. And this is exactly what makes the Tub collection so bold and daring. Chairs, armchairs, sofas and aluminium tables in a clean and contemporary language that is perfect for introducing into the most modern installations.

Lineal

Gabriel Teixidó

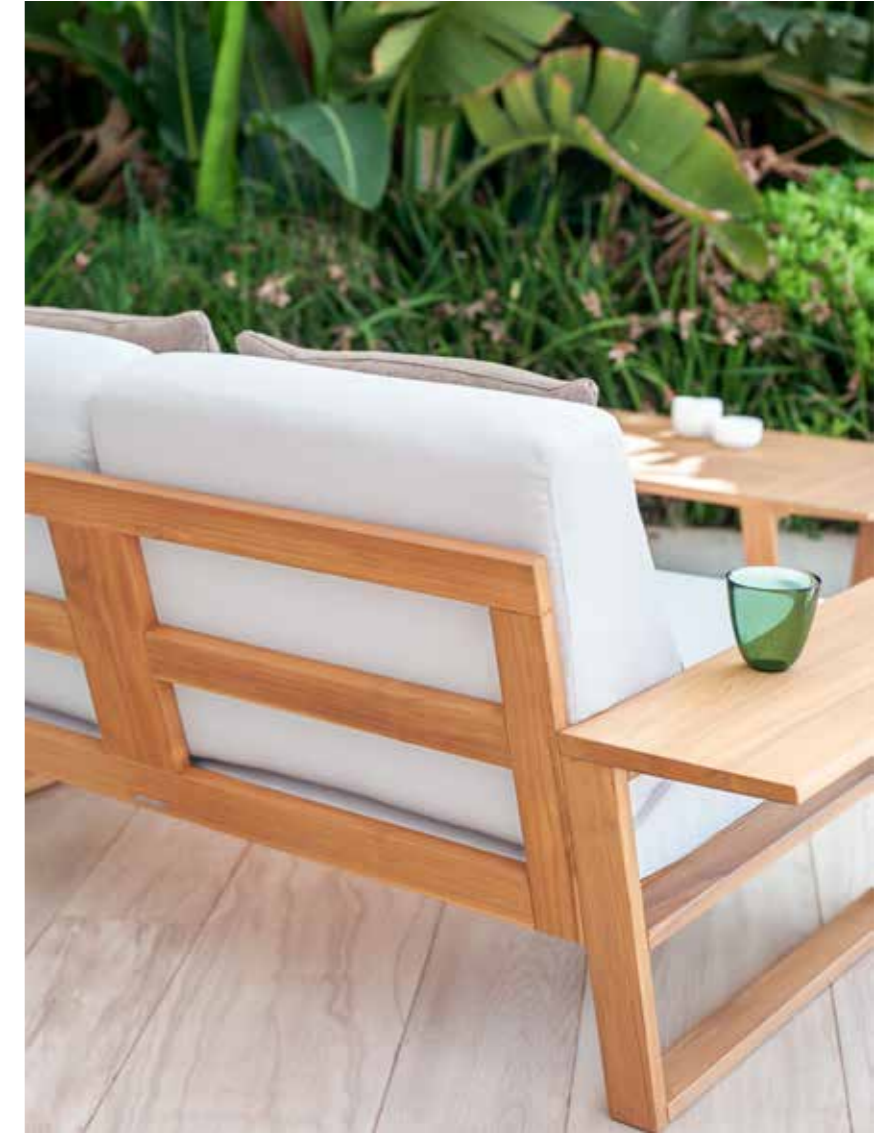

Las líneas rectas son el camino más corto al confort. Sencillas y puras, en la colección Lineal dan vida a unos muebles de exterior que se combinan y complementan entre sí. Asientos y mesas en teca natural y con cojines de tejidos frescos y resistentes de los que no querrás moverte. La suerte es que no tendrás que hacerlo porque hasta los reposabrazos están pensados para servir de mesita.

Straight lines are the shortest way to comfort. Simple and pure, in the Lineal collection these lines bring outdoor furniture to life, which can be mixed and matched. Seating pieces and tables in natural teak and with cushions made of fresh, resistant fabrics that'll make you never want to move. And it's your lucky day, because even the armrests are designed to be used as a table.

Fennec

Gabriel Teixidó

Hay asientos que tienen alas y, cuando nos sentamos en ellos, nuestro cuerpo vuela, ingrávulo como una pompa de jabón. Así son los sillones Fennec con reposabrazos. Junto a ellos mesas en varios tamaños y tonos y con esa inteligente mezcla de diseño, confort y funcionalidad que requieren los exteriores más exigentes.

Some seats have wings and allow our bodies to fly, weightless like a feather. That's how you would describe the Fennec armchairs, with armrests and a headrest. But they're not alone. The tables come in various sizes and tones with an intelligent mix of design, comfort and functionality that is required by the most demanding outdoor spaces.

Sunset

Esther Campos

Con cortina, para una siesta sin prisa, o sin ella, para un atardecer romántico... Sunset es una tumbona para compartir. Su ligero dosel, más allá de dar sombra, nos hace sentir como los protagonistas de un cuento contemporáneo. Su estructura, firme y resistente, es de aluminio anodizado, y el lecho es de la fibra sintética Shintotex® de POINT con su trenzado artesanal.

With a canopy for an unhurried nap, or without it for a romantic sunset... Sunset is a sun lounger to share. Its lightweight canopy, in addition to simply providing shade, makes us feel like the main characters in a modern-day fairytale. Its firm and resistant structure is made of anodised aluminium, while the bed is made of POINT's synthetic Shintotex® fibre with its handmade weaving.
