

Support Opportunities for Corporate Partners

Be a Part of the Imagining the Possibilities Campaign

Since its inception in 1981, the Oncology Nursing Foundation has been at the forefront of funding for cancer nursing research, education and leadership. Through the Imagining the Possibilities campaign, we will continue serving oncology nurses as they deserve.

As we look toward the future and the celebration of ONS's 50th anniversary in 2025, we are launching an \$8 million fundraising campaign to continue to provide critical support for the next 50 years. The campaign brings a unique opportunity to continue to advance and grow our corporate partnership not only through our mission programs, but also through two new initiatives, a Sustaining Impact Fund and an innovative Oncology Nursing History Center.

Through corporate partnerships, your support can bring a variety of opportunities for recognition through printed materials (including the annual Honor Roll of Supporters), bi-annual newsletter, and on our website.

Join These Corporations in Supporting Oncology Nursing

The Foundation is grateful for the generous support from our corporate partners. Collectively in 2023 and thanks to our corporate partners, we raised nearly \$1 million dollars to help support training, education, research, and unrestricted funding opportunities to our 35,000+ Oncology Nursing Society members and beyond.

Corporate sponsorship opportunities start at \$7,500.

Show Your Company's Support

Become an underwriting partner of one or more of the following Foundation events and enjoy recognition of your support for oncology nurses.
