President's Report:

Hi All

I don't know how the rest of you are finding it but the run up to Christmas for us is absolutely manic this year with both work and the social life !!! I hope you are all coping through the festive season.

Wasn't it a breath of fresh air having Jerome and Liam come back to the club after their tilt at becoming Frankston councillors, and congrats to Liam on his success and Jerome for taking on the PA role what a team those 2 are.

We have Glenn Fernandez from the PKCGC new Community Foundation Committee coming to talk to us about their program and philosophy, and how we all might be able to work together to benefit the disadvantaged of our community.

Cheers

Shane

On the Lighter side:

A Physicist, an Engineer and a Statistician go on a hunting trip. They are walking through the woods when they spot a deer in a clearing.

The Physicist calculates the distance to the target, the velocity and the drop of the bullet and fires, missing the deer five feet to the left. The engineer rolls his eyes. "You forgot to account for the wind., Give it here". He snatches the rifle, licks his finger and estimates the speed and direction of the wind and fires, missing the deer 5 feet to the right.

Suddenly the statistician claps his hands and yells "We got him".

A thief entered a house mid-afternoon. He tied up the woman and at knife-point asked the man to hand over the jewellery and money. Man started sobbing and said, "Brother, you take anything you want but please untie the rope and free her." Thief: "You really love your wife!!" Man: "No, she is my neighbor's wife. Mine will arrive shortly"
