Hello, I am a retired engineer on aeronautics. During my career, I had a chance to visit more than 30 countries in four continents except Africa. In 1987 to 1989, I stayed in Seattle, USA. Those experiences gave me lots of wonderful and happy memories, and made me being a guide for foreigners. In Tochigi there are many sightseeing areas not only beautiful scenic spots but also famous and historic sites, not to mention Nikko World Heritage Site. I hope to introduce these famous tourist spots to all of you. I am sure I can assist you for making a wonderful memories of Tochigi area. Feel free to call me.
