

ONS Event Signage Policy 2024

ONS will list your symposia and/or theater presentation on general signage in the event space.

Product Theaters: You may place your branded signs directly outside of the Product Theater.

Symposia: Signage provided by your company can be placed inside your meeting room. All signage, including promotional and directional signage, must be placed within the allowable zones for your space (please see below for maps). **Any signage outside of these zones will be removed.**

The Marriott Marquis **does not permit sponsors to place signage in hotel lobbies** or anywhere else within the exhibit hall or Convention Center. **Signage placed outside of sanctioned areas will be removed.** You are free to use lollipop signs (see picture) held by an employee throughout the hotel to assist with human directionals. The sign must be held by the employee at all times.

ONS does not need to preview your signage or give approval.

If you are not going to be on-site, please communicate this information to your on-site staff team.

If you would like to purchase additional signage to promote your symposia or theater presentation, please contact ONSSponsorships@smithbucklin.com for a listing of opportunities.

Thank you in advance for your compliance with these policies.

Sincerely,
ONS Show Management
