

Technical Data Sheet

AgSept® Protect

Product Description:	AgSept® Protect is a ready-to-use disinfectant for surfaces and for hand disinfection, consisting of hydrogen peroxide and elemental nano silver. The effect of disinfection is both quick and sustainable.
Composition:	0,1% hydrogen peroxide, 30 ppm nano silver
Density:	1,0 g/ml
Active ingredient content:	0,1% hydrogen peroxide 30 ppm nano silver Distilled water
Color:	Yellowish
Odor:	Neutral
Proportion of elemental silver:	98%
Proportion of ionic silver:	2%
Packaging:	1-Liter special bottle 5-Liter container
Actions:	Bactericidal, limited viricidal, fungicidal activity.

Acting times:

Bactericida	Acting time:	30 seconds
Fungicidal	Acting time:	5 minutes
Limited viricidal (incl. HBV, HIV)	Acting time:	30 seconds
Noroviruses, Coronaviruses	Acting time:	30 seconds

Preparation:

The application on surfaces and skin is direct and undiluted.
Pre-clean the surfaces well and make them dust and grease-free.

Application:

Apply AgSept® Protect to the skin, distribute well and ensure that the skin is continuously wet during application.

Apply AgSept® Protect to the surface using a rag, spread well and let dry. A germ-resistant, long-lasting disinfection is created, effective against bacteria, viruses, fungi and mold. The duration of action on surfaces is sustainable and lasts longer in comparison to similar products.

Registrations:

AgSept® Protect fulfills the criteria of the Directive 98/8/EC for EU biocidal products and the Regulation (EU) No. 528/2012 for biocidal products.

Registration numbers BAUA:

N-88152 Disinfection in human hygiene (incl. hand disinfection) and disinfection of surfaces, incl. the food and animal feed sectors.

Use biocidal products carefully. Read product information and label before use.
