Beyond amazing! The owners are so welcoming and accommodating, I cannot recommend this place enough. All western amenities with Myanmar accents throughout the property. This is by far the best place I've stayed at in south east asia.

Where to start! A new, beautifully and elegantly designed and constructed 8 bedroom guest house on top of a hill overlooking a lake with the sea shimmering beyond.

The location, sitting atop a hill, is quiet, with cool breezes and just stunning views.

The property is very spacious with wonderful attention to detail and artistic features in each room.

New and very comfortable beds and bedding in luxurious bedrooms.

Great breakfast. Real coffee, European cheeses, muesli, granola, etc etc. After some time in Myanmar this was quite a surprise and treat for us.

Frank & Utw, the German owners picked us up from the airport and helped us plan our time on the beach in Ngapali. They even have their own private and very remote beach a boat ride away. We were luck enough to be able to visit. Real Robinson Crusoe stuff!

Schöne Location in Ngapali. Als Kontrast zur Strandlage kann man hier etwas ruhiger das familiäre persönliche Ambiente genießen. Alle Zimmer sind individuell und geschmackvoll eingerichtet und es gibt einen hübschen Pool mit ausreichend Sonne liegen.

We stayed just over two weeks at Ute & Frank's place and absolutely loved our stay. It is located on a hilltop about 400m from the main road providing a stunning view of the lake and sea. The place is beautifully designed to a very high standard and great attention to detail. The furnishings are high quality throughout with nice, thoughtful touches. We stayed in "The Dog" which has an exceptionally spacious terrace (the reason we chose this particular room). It was really fantastic although you need to be aware that anyone can use the terrace as a walk through as the house can be accessed from two sides. The house is very much designed as an open space with a terrace which wraps right around it so each room has access to the terrace with super comfy chairs and sometimes daybeds. The main property has a shared terrace with the most significant views and sunsets which can be used by all guests. There is also a nice swimming pool to cool off in . We researched the accommodation options carefully prior to booking and can honestly say that we think this is the most beautifully appointed place we came across and truly unique. The hosts, Ute & Frank live in the property and are very sociable and even offered us to join them on a couple of day trips, which we really appreciated. Brilliant stay and highly recommended!
