MOTORI TRIFASE AD UNA VELOCITA' serie VE

ONE-SPEED THREE PHASE MOTORS – DREHSTROMMOTOREN MIT EINER DREHZAHL

MOTORES TRIFASICOS DE UNA VELOCIDAD – MOTEURS TRIPHASES A UNE SEULE VITESSE

EFFICIENZA IE1

I motori trifase a singola velocità a 2,4,6 e 8 poli della serie VE sono costruiti in base alla efficienza standard, ovvero sono conformi ai livelli di rendimento IE1 in accordo alla pubblicazione IEC 60034-30.

Il livello di rendimento IE1 corrisponde approssimativamente al livello Eff2 secondo l'accordo europeo CEMEP su base volontaria.
