

Multistakeholder platform:

Creation of a network of actors supporting migrant entrepreneurship.

What are the benefits of the multi-stakeholder platform?

- The exchange of experience and best practice is promoted.
- All stakeholders are involved.
- Market gaps are identified.

How does it work?

A toolkit is created together with the stakeholders. The toolkit contains information on how to set up local platforms. The platforms are diverse and inclusive and create a link between the project and local authorities and communities.

The WE CAN project contributes to **improving the effectiveness and impact of the project** at the local level and promotes the **socio-economic inclusion** of migrants.

the European Union

CHAPTER#2

Developing and improving the entrepreneurial skills of people with a migration background

Activation programme

The training programme aims to help migrants improve their social and economic opportunities.

How does it work?

- Individual assessment of participants' skills and needs
- Information on rights, social benefits and other support services
- Legal advice and other counselling services
- Preparation for a structured daily routine
- Establishment of a platform for dialogue between migrants

Helping migrants to **improve their skills and capacities** so that they can **integrate into society** by becoming independent.
