- *SIO reserves the right to schedule the event marketing collateral in accordance with the overall society marketing calendar.
- Honoraria for faculty not included; pricing available upon request
- CME optional; pricing available upon request.

Series Programming | Contact for Pricing

We're always open to flexing our model to accommodate multi-part education opportunities. Ask us about two-, three-, and six-part programming examples, or share a custom concept we can co-develop! Past series programming include Talk Tuesdays, a new virtual series that is an initiative of the SIO Research Development Committee which includes free educational lectures designed for early-career interventional radiologists. Contact us today to learn more about opportunities to partner with SIO in 2023.

Master Classes (Virtual or In-Person) | Contact for Pricing

Intensive half day, full day, or multi-day workshops designed to follow a custom curriculum developed by identified expert faculty and SIO program task forces.

Past Master Class Courses:

- Liver Directed Therapy Master Class
 - In-person 1.5 day workshop
 - Virtual one day workshop
- Y-90: Your Guide to Y90 Radioembolization
 - Virtual Event | 2-day course | custom design
- Musculoskeletal
 - In-person half day or 1.5 day workshop
 - Virtual six week series

Customized Course Design | Contact for Pricing

The SIO team, Education Committee, and key stakeholders are available to support the design and execution of your vision to address an identified need within the SIO member community. Opportunities range from webinar series or workshops to cohort learning models.
