## Call for Support

Model NATO Germany is looking for volunteers to organize the 3<sup>rd</sup> Model NATO Germany, taking place from the 10<sup>th</sup> to the 14<sup>th</sup> of November 2025, as

### Team Member in the Logistics Department

As a non-profit organization, Model NATO Germany is dedicated to ensuring a sustainable future for NATO as an institution of collective defense. Our mission is to empower the next generation of decision-makers and passionate students with a profound understanding of NATO's values, decision-making processes, political intricacies, and its pivotal role in transatlantic security.

During a four-day simulation, we will grant 96 students and young professionals from Germany and abroad the opportunity to address a hypothetical crisis scenario within the mechanisms and processes of the North Atlantic Treaty Organization. Filling the roles of National Representatives working in delegations, the students will have to coordinate their actions beyond their assigned committees and negotiate their standpoints within both the North Atlantic Council, the Military Committee as well as a scenario-dependent third committee.

As a **Team Member in the Logistics Department**, you'll support the planning, preparation, and execution of the physical aspects of Model NATO Germany, such as the event location, accommodation, transportation, and catering. Additionally, you will set-up and support the use of communication, information, and technical infrastructure. You will further plan and execute social events, which will involve communication and coordination with third parties.

For this position, we are looking for people with strong organizational skills, holistic thinking, high reliability, and a pragmatic mindset. Proficiency in English and intermediate German are essential requirements. Prior experience in event management, strong communication skills, both written and verbal, and a general interest in security policy and NATO-related issues, are desirable.

We offer the opportunity to gain valuable experience in project management and in building a logistical infrastructure for approximately 130 participants. You will have the chance to develop your soft skills while collaborating with organizations and individuals involved in security-related topics. Additionally, you will become part of an extensive network and work alongside a motivated team of students passionate about security policy.

Applications, consisting of a short motivation letter (maximum 1 page in English) and a CV (in English) can be sent by e-mail to [maria-fernanda.beltran-sierra@modelnatogermany.de](mailto:maria-fernanda.beltran-sierra@modelnatogermany.de) by the 2<sup>nd</sup> of March 2025.
