EUROPEAN HEALTH PREVENTION DAY 2024

We invite you to the **European Health Prevention Day 2024**, one of the most significant events in the field of health tourism in Europe. **From May 23rd to 24th, 2024**, the picturesque spa town of **Wiesbaden** will open its doors to this international congress, bringing together experts from around the world to collectively advocate for a healthier future for Europe.

Where is the journey heading? What opportunities does the transformation bring? How is health tourism changing, and how can we address challenges arising from new technologies, crises, and shortages such as the shortage of skilled workers?

Experience exciting lectures, interactive workshops, and discussions with top experts.

In addition to the diverse program, we would like to offer you the opportunity to establish personal contacts and expand your networks. Direct exchange on-site is a crucial part of the congress and provides you with valuable insights, new collaboration possibilities, and personal encounters.

For more information, please visit our website: <https://www.european-health-prevention-day.eu>

The registration will open at the beginning of 2024.

The European Health Prevention Day 2024 is significantly supported by the city of Wiesbaden. City councilor Milena Löbcke takes over the patronage of this event. We look forward to welcoming you in Wiesbaden!

Warm regards,

Dr. Dirk Thom

2nd Chairman of Quality in Health Prevention e.V.
