

MERMAID WATER TRAY!

You will need:

a large storage box, water tray or tray that can hold water
pebbles & shells

(if you can get to the beach for a walk first, collect seaweed,
shells and other beachy items as you go)

small sea animals, fish etc.

sparkly bits, you can make these by washing and cutting up
food wrappers (crisp packets are great as they are colourful and
sparkly)

play sand

add the sand to the bottom of the tray, then place all of your
play items, sparkles, pebbles etc, on top to create a seabed.

add water until all of the items are fully submerged.

and then enjoy!! encouraging the children to be the mermaids,

this activity can be open ended and used inside or out but
NEVER leave your child unattended with water!
