

## Preview Days of Future 2021

Days of Future 2021 will take place from June 10th to 13th this year, that's one time fixed. For everything else, we have Plan A (analog event), B (hybrid) or C (online meeting) ready - depending on the pandemic regulations. It is also certain that the event is a cooperation with the team of the ERASMUS+ project LiFT Leadership for Transition Politics and therefore everything will revolve around the "politics of the future". Partners come from Germany, Sweden, Norway, Switzerland and Great Britain. The Institute for Future Competencies represents Austria. More detailed information about the LiFT project here:

This international team will discuss with local, national and international pioneers in politics and work on future projects. Another partner is the Museum am Bach in Ruden, managed by Alex Samyi and his wife Ulrike, in which we will find out whether and how citizens' dialogues at the "Round Table" will be round. This time we will be guests in Southern Carinthia / Austria, the exact location is still to be determined.
