

CARRY ON

Maybe you're alone
And you've got no place to go
And no one who will help you
As you try to make your dreams come true

You think it might be time to see
That it's all fantasy
But don't just give in to your fate
Follow your star before it's too late

Come on don't let them destroy your dreams
Hang on to that part of you
Even if you don't know
What it all means
Only you can make your dreams come true
And carry on, carry on

Do you dream of success?
And things you'd like to possess
Do you want to be who you really are?
Or do you dream of being a star?

So many things are not what they seem
But only you can live out your dream

Come on don't let them destroy your dreams
Hang on to that part of you
Even if you don't know
What it all means
Only you can make your dreams come true

Come on don't let them destroy your dreams
Hang on to that part of you
Even if you don't know
What it all means
Only you can make your dreams come true
And carry on

Carry on
Carry on
Carry on

Carry on
Carry on
Carry on
