
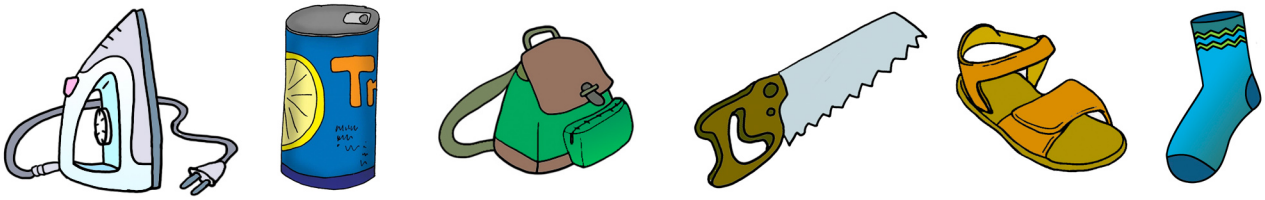
Bei Hempels unter´m Sofa



ein Memo-Spiel bei Sigmatismus für Kinder ab 7

zunächst die Seiten 2 und 3, sowie 4 und 5 zusammenkleben, bei Bedarf laminieren und die Karten ausschneiden, sodass 15 Rümpelkarten mit unterschiedlicher Vorder- und Rückseite entstehen. Auch die 20 verschiedenen Aufgabenkarten ausschneiden.

Ziel des Spieles ist es, so viele Aufgabenkarten wie möglich zu ergattern.
Die 15 Rümpelkarten liegen zufällig auf dem Tisch. Ist ein Spieler an der Reihe, zieht er eine Aufgabenkarte. Jetzt müssen genau drei Karten mit Rümpelgegenständen umgedreht werden. Wenn danach die auf der Aufgabenkarte gezeigten Gegenstände in der entsprechenden Anzahl zu sehen sind, ist die Aufgabe gelöst und die Karte gehört dem Spieler. Wenn nicht, muss der Spieler versuchen, die Aufgabe in der nächsten Runde zu lösen.
