Havana

Alfonso Gallego

En blanco y negro, como en las mejores fotos, la fibra se entrelaza en un armónico contraste en la colección Havana. Un dúo indisoluble, el mejor tándem decorativo, en versátiles sillas y mesas de líneas sinuosas que, como brazos y piernas de ingravidos bailarines, invitan más que a sentarse a sentirse.

In black and white, just like the best photos, in the Havana collection the fibre is woven in a harmonious contrast. An unbreakable duo, the best decorative tandem, in versatile chairs and tables with sinuous lines that, just like the arms and legs of weightless dancers, invite you to experience a sensation rather than to just sit down.

Arena

Alfonso Gallego

Cuando el salón sale al jardín y se integra con la naturaleza, los sentidos se despiertan. Y entonces huele a verano, a tresillo de mimbre de los años 60, a Mediterráneo. El confort outdoors en unos muebles con solera, altas dosis de frescura y un guiño al pasado que nos recuerda los orígenes de la firma.

When the living room heads out into the garden and joins nature, our senses are awakened. And it is in this moment that it truly smells of summer, of a three-seat wicker sofa from the '60s, of the Mediterranean. Outdoor comfort in furniture with character, high doses of originality and a glimpse into the past that brings the brand's origins to mind.

Brumas

Alfonso Gallego

La queremos siempre, pero especialmente en verano por su frescura y confortabilidad. Es la fibra sintética Shintotex®, que en la colección Brumas, con su tono tostado, evoca más que nunca al mimbre con el que nuestros abuelos trenzaron cestas y sillas. Para uno, para dos o para tres, estos renovados asientos, más resistentes que sus ancestros, nos recuerdan quienes fuimos, pero sobre todo quienes somos.

We've always loved it, but we love it even more in summer due to how fresh and comfortable it is. We're talking about the synthetic Shintotex® fibre that's used in the Brumas collection and that now more than ever before, is reminiscent of the wicker that our grandparents used to weave baskets and chairs. For one, for two, or for three people, these renewed seats are more durable than their predecessors, and although they remind us who we were, they remind all who we are.

Como en un movimiento zigzagueante, el estampado en el trenzado de la fibra de POINT recorre la silla Charleston aportando esa nota de color que casa con la abundante vegetación de nuestros exteriores. Alegres asientos para hogares e instalaciones con *swing*.

Just like a zigzag movement, the print on the weave of the POINT fibre dances across the Charleston armchair, providing that hint of colour that blends perfectly with the abundant vegetation in our outdoor spaces. Cheerful seating for homes and installations with plenty of *swing*.
