

We are a small, successful and continuous growing consulting company located in Brugg. Our clients are banks from Switzerland, Germany and from certain other countries globally. Our focus is on bank controlling throughout the topics of financial accounting and management accounting as well as reporting, risk controlling and liquidity management. Our approach is not only to functionally design, moreover we are using standard software, mainly SAP, for and with our clients to implement those towards a productive usage.

For strengthening of our team we are looking for a

## **Consultant SAP S/4 HANA with focus area FPSL**

### **We are looking for you, if you**

- have a university or university of applied science degree in the area of either business economics, IT or an technical degree of a equivalent area,
- have very good analytical skills,
- are able to travel up to 4 days/week to our clients (mainly in Switzerland) for work purposes,
- have very good German and English communication skills

Existing knowledge in bank controlling as well as IT programming are beneficial, however no requirement. Knowledge in SAP are not required.

You are able to get responsible for your work in a diverse work environment at an early stage already. For this you can be sure that you will get our full support of our experienced colleagues.

### **Your tasks will be most probably**

- Support of IT-close functional concept with focus on SAP S/4 HANA FPSL (Financial Product Subledger) as well as preparation of IT-concept(s)
- Implementation of SAP S/4 with focus FPSL (Customizing, BAdI-Implementation, Development of custom enhancements)
- Preparation, Execution and Support of technical and functional tests
- Development and enhancement of new functional and technical topics

We are convinced that the successful work for our clients will only be possible in a team with an outstanding team spirit. For this we are working very efficient and with agile methods. Across our extensive functional knowledge, we are also technically always up-to-date.

Are you interested to work on this? Then we are looking for your application documents.

We look forward hearing from you!
