Initially, when I arrived to Hile everything was new to me; the place people here and even the kids i was about to teach. Gradually, I started adopting the environment here and creating a kind of bond with the kids and even the parents of some. Came to know that people here are really nice as they were all kind to me in person. After Miss Pemba arrived to Hile, we develop a quick friendly bond. She helped me and guided me with many of my tasks. The teaching process was going very well. Even the kids started giving me so much of love. They cooperate with what I teach them.

So far, everything is going very well.
