

TORRE3

Nobodys Fool

You made your choice
Believe the best
You found your strength
Let the demons come to rest

You got your share
Made it through
Now the time is yours
The ghosts have disappeared

Nobody Fool

Here you are
Feeling good
Come to believe
You decide your path

You made your choice
Believe the best
You found your strength
Let the demons come to rest

To help yourself
Will suit you fine
And in the end you shine

So cool
So strong
You'll never be nobodys fool
So tough
So straight
You got it all
From now on you'll be nobodys fool

You got your share
Made it through
Now the time is yours
The ghosts have disappeared

From here on now
Your feeling fine
The sun is up
and you will rise above

You won yourself
it suits you fine
Demons end and now you shine

So cool
So strong
You'll never be nobodys fool

So tough
So straight
You got it all
From now on you are nobodys fool

Come help yourself
It suits you fine
And in the end you shine

So cool
So strong
You'll never be nobodys fool
So tough
So straight
You got it all
From now on you'll be nobodys fool

You'll never be nobodys fool

You got it all
From now on you are nobodys fool

And in the end you shine

Get Up

She comes with superpower
Get up
No day for you to run
she comes with all her might
Get up
Don't let her fade away
she walks her firepower
Get up
No where for you to run
she comes with superpower
Get up
Go and talk to her

This time is yours...your moment to be brave
Don't think too much ... show her you are here
You don't act now it'll be over before it began

I see why
Your so shy

she comes with superpower
Get up
No day for you to run
she comes with all her might
Get up
Don't let her fade away

You making the move
Now's the time, no hesitation
Trust in yourself
Ask her now
You know how

honest my friend..... tell her like it is
Don't waste another minute
but don't be too grand
Just try to spend some time
No getting out of this now

she comes with superpower
Get up
No day for you to run
she comes with all her might
Get up
Don't let her fade away
she walks her firepower
Get up
No where for you to run
she comes with superpower
Get up
Go and talk to her

The move is yours
Don't wait too long - its infatuation
Just be yourself

Ask her now

Will you say the right thing
Will she stay or run?
Will she see right through you?
Ask her now
You know how

she comes with superpower
Get up
No day for you to run
she comes with all her might
Get up
Don't let her fade away
she walks her firepower
Get up
No where for you to run
she comes with superpower
Get up
Go and talk to her

Now
